Wastewater Operator Certification (1) [Add Note](#)

To get started, drag controls from the left to this area

You may repeat this section by clicking the "+" section if you have more than one certified operator

Company: PTS Consulting, LLC

Phone: 248-863-7522

Email: EGA@Americanwaste.org

Are there any known groundwater contamination sites within 1/4 mile of your disposal site?

Yes

Yes		Yes			
-----	--	-----	--	--	--

Is your facility located in a designated provisional or traditional wellhead protection area?

No

No		No			
----	--	----	--	--	--

Instructions:

If unsure if your facility is located within a wellhead protection area, please click the following link:

If your facility is in a wellhead protection area(s) please identify the name(s) and WSSN number(s)

NONE PROVIDED

Isolation Distances from Wells

The following are isolation distances required from the discharge to adjacent water supply wells for R2210(y) permits. What is the distance from your discharge to the nearest water supply well? Minimum Isolation Distances Well Type I: (serves water year round more than 15 units; or not less than 25 residents): 200 ft Well Type IIa: (serves water at least 6 months per year; not less than 25 same residents): 200 ft Well Type IIb: (serves water at least 60 days per year; more than 15 connections; or not less than 25 people): 75 ft Well Type III: (serves water less than 60 days per year; or less than 25 people and 15 connections) : 75 ft Domestic: single living unit: 50 ft These isolation distances include both wells on your own property and those on surrounding properties.

Distance to nearest Type I or IIa water supply well (ft) >200 feet

Distance to nearest Type IIb or III water supply well (ft) >75 feet

Distance to nearest Domestic water supply well (ft) > 800 feet

Adjacent Property Owners

List the names and addresses of all property owners adjacent to the facility, treatment systems and discharge locations. Include properties across roadways.
