

A RESOLUTION OF SUPPORT FOR THE CITY OF CADILLAC'S

LDFA Carbon Regeneration Grant Application

At a meeting of the Local Finance Development Authority (LDFA) of the City of Cadillac, Wexford County, Michigan, at the Cadillac Municipal Complex, 200 N. Lake Street, Cadillac, MI on the 25th day of February 2026, at 10:30 AM.

The following resolution was offered:

WHEREAS, the Local Finance Development Authority of the City of Cadillac oversees the operation of the Kysor Superfund groundwater cleanup system including two 5,000-pound carbon filter treatment vessels that have been repurposed for the capture and control of PFAS chemicals in groundwater; and

WHEREAS, one of the carbon filter vessels needed for the effective capture of PFAS, that has been in service for multiple years, is no longer currently effective for the capture of PFAS due to the accumulation of foulants; and

WHEREAS, it is a priority of the Local Finance Development Authority to regenerate this carbon using an LDFA site filter cleaning and PFAS destruction technology allowing this filter to be reused without the generation of RCRA and CERCLA hazardous wastes; and

WHEREAS, the City of Cadillac has issued a request for proposal with a proposal deadline of March 11, for the selection of a contractor that would successfully implement this novel carbon regeneration technology.

NOW THEREFORE BE IT RESOLVED, the Local Finance Development Authority supports the City of Cadillac's submittal of a NextCycle Circular Economy grant request in support of the LDFA's implementation of a carbon filter regeneration technology.
