

BioTech Agronomics, Inc.

Residual Management Company

R323.2408 (3) (a) CPLR Compliance Certification

CPLR Certification

(3) A person who applies biosolids to the land shall obtain information needed to comply with all of the following requirements:

(a) Before a person applies bulk biosolids subject to the cumulative pollutant loading rates in R323.2409 (5) (b) to the land, the person shall contact the state to determine whether bulk biosolids subject to the cumulative pollutant loading rates in R323.2409 (5) (b) have been applied to the site since July 20, 1993, except when the land has been owned by the generator since July 20, 1993, and the cumulative pollutant loading rate is known. The notification requirements in sub-rule (4) still apply.

(b) In accordance with the above referenced requirements, Biotech agronomics is hereby notifying the MDEQ of our intent to apply bulk sewage biosolids subject to the cumulative loading rates in rates in R323.2409 and 503.13 to the land application site listed below.

MDEQ Site #: 06S06W04-SF01

Property Owner: Sexton Farms
Farmer: Sexton Farms

Section: 04
County: Branch
Township: Coldwater

Acreage: 52
Latitude: N 42 59 02
Longitude: W 85 00 14

It is not possible that any other entity has legally applied to these sites after July 20, 1993 due to the existence of the following conditions:

1. Biotech agronomics, is the current sole land applier, contracted to apply the generators biosolids to the respective application site listed.
2. Biotech agronomics, holds the farmer and landowner agreement for this site.

Project: Coldwater WWTP
