CITY COUNCIL

MEETING PACKET

REGULAR MEETING

August 17, 2026 • 6:00 p.m.

Cadillac Municipal Complex

Council Chambers

200 N. Lake Street

Cadillac, Michigan 49601

August 17, 2026 City Council Meeting Agenda
6 p.m. at City Hall - 200 N. Lake St. – Cadillac, MI 49601

We are fully present

CALL TO ORDER
PLEDGE OF ALLEGIANCE
ROLL CALL

I. APPROVAL OF AGENDA

II. PUBLIC COMMENTS

This opportunity for public comment provides the public with a chance to make a statement regarding any subject matter. Public comment is not an opportunity to necessarily ask questions or converse with City Staff, Council Members or other meeting attendees. Contact information for Council and staff is available on our website, www.cadillac-mi.net, or can be obtained by calling (231) 775-0181. Comment time is limited to 3-minutes, and unused time may not be yielded back or given to someone else to use.

III. CONSENT AGENDA

All items listed on the consent agenda are considered routine and will be enacted by one motion with roll call vote. There will be no separate discussion of these items unless a Council Member so requests it, in which event the items will be removed from the consent agenda and discussed separately.

- A. Minutes from the regular meeting held on July 20, 2026

CITY COUNCIL MEETING MINUTES

July 20, 2026

Cadillac City Hall - 200 N. Lake St. - Cadillac, Michigan 49601

CALL TO ORDER

The meeting was called to order by Mayor Powell at approximately 6:00 p.m.

PLEDGE OF ALLEGIANCE

ROLL CALL

Council Present: Elenbaas, Engels, French, Hopkins, Mayor Powell

Council Absent:

Staff Present: Peccia, Navarro, Waldo, Roberts, Oropka, Almaraz

APPROVAL OF AGENDA

2026-135 Approve the Agenda as Amended to add Banner Request.

Motion was made by Engels and supported by Elenbaas to approve the agenda as amended to add Banner Request.

Motion was unanimously approved.

PUBLIC COMMENTS

A resident, Tim Landfair, expressed concerns about ongoing methane gas odors allegedly originating from the Wexford County Jail sewer system behind his home. He claims temporary measures such as sanitizer bags only mask the smell rather than address potential health concerns.

A resident, Bill Barnett, urged the City to improve transparency and communication regarding issues with the wastewater treatment plant and its Industrial Pretreatment (IP) program, including reported violations and potential environmental impacts. He expressed concern about possible mismanagement

Cadillac City Council Meeting Minutes

July 20, 2026

Page 2

and the discharge of metals into the river, and called for more frequent meetings, stronger oversight (potentially through an IP board), and corrective action.

A representative of the Cadillac Wexford County Public Library Board, Bill Swank, stated he has been unable to obtain a current lease agreement between the City and the library despite multiple requests over the past two years. He reported receiving only outdated correspondence and documents, some dating back several decades. He requested the City's assistance in locating the lease or forming a joint committee to establish a new agreement, noting the library has invested significant funds into a building it does not own.

Residents Dale and Nicole Whaley of 215 Wright Street raised concerns about ongoing safety issues along the walkway between Lake Street and the railroad tracks, citing unsupervised youth engaging in harassment and, recently, physical violence resulting in injury. They reported a lack of effective response from law enforcement and described additional concerns including drug-related debris in the area.

A resident, A Stevens, commended Mayor Powell for his leadership efforts in coordinating community response during the recent flood, noting his initiative and humility in handling the situation. He also emphasized the importance of ensuring City Council receives complete and timely information regarding utility and environmental issues, referencing past instances where concerns were not communicated.

A resident, Linda Durant of the Kenwood Park area, inquired about the status of a potential grant related to expanding or improving the City's water system. She explained that her well is failing and, following recent storm damage and flooding impacts to her home, she is seeking access to city water but is facing financial constraints.

CONSENT AGENDA

2026-136 Approve consent agenda as presented.

Motion was made by Elenbaas and supported by Hopkins to approve the consent agenda as presented.

Motion unanimously approved.

COMMUNITY SPOTLIGHT

A. Public Amenities at Lakelynn Apartments

Developers of the Lakeland Apartment Complex provided a community spotlight update, outlining plans for a multi-phase development that currently includes over 200 units, with an additional 36-unit building under consideration. As part of a potential agreement with the city, the developers proposed adding public amenities to a portion of City-owned land, including a walking trail and approximately

Cadillac City Council Meeting Minutes

July 20, 2026

Page 3

three-quarter-acre dog park with parking, while preserving existing wetland areas. The project is progressing, with the first 36-unit building under construction and anticipated to open in December, and pre-leasing expected to begin soon. Advancement of the additional building and public amenities is contingent upon voter approval of a ballot measure allowing the City to sell the property. If completed as envisioned, the development would be the largest multi-family housing project in the City's history.

PUBLIC HEARING

A. Public Hearing to consider Adoption of Ordinance 2026-10 to Vacate Alley at 1415 Sunnyside Drive and Reserve 20 Ft Easement

Theresa Wlado, community development director, introduced a resolution to adopt an ordinance vacating an alley located at 1415 Sunnyside Drive while retaining a 20-foot easement as outlined in the attached exhibit. A recent property survey identified that the alley was not properly vacated in the 1950s or 1960s due to a clerical error, despite City and County GIS records indicating otherwise. Staff and the Planning Commission recommended reprocessing the vacation at no cost to the property owner to correct the records and update the City's mapping.

Mayor Powell opened the public hearing.

There were no public comments.

Mayor Powell closed the public hearing.

2026-137 Adopt Ordinance 2026-10 to Vacate Alley at 1415 Sunnyside Drive and Reserve 20 Ft Easement

Motion was made by Engels and supported by French to adopt ordinance 2026-10 vacating an alley at 1415 Sunnyside drive and reserving a public easement.

Motion unanimously approved.

APPOINTMENTS

A. Ricardo Bianchini for LDFA

2026-138 Appointment of Ricardo Bianchini

Motion was made by and supported by to appoint Ricardo Bianchini to a 4 year term on the LDFA, which will expire on 7/20/30.

Motion unanimously approved.

B. Martin Dubravec for Cadillac Historic District Commission

2026-139 Appointment of Martin Dubravec

Cadillac City Council Meeting Minutes

July 20, 2026

Page 4

Motion was made by and supported by to appoint Martin Dubravec to a 3 year term on the Cadillac Historic District Commission, which will expire on 7/20/2029.

Motion unanimously approved.

C. Connie Boice for Cadillac Historic District Commission

2026-140 Appointment of Connie Boice

Motion was made by and supported by to appoint Connie Boice to a 3 year term on the Cadillac Historic District Commission, which will expire on 7/20/2029.

Motion unanimously approved.

COMMUNICATIONS

A. Mitchell Market – Street Closure Request

2026-141 Approve Street Closure Request

Motion made by Elenbaas and supported by Engels to approve the street closure request of Mitchell St from Cass St to Nelson St on August 1, 2026 from 10:00 am to 6:00pm

Motion unanimously approved.

B. Festival of Races – Street Closure Request

2026-142 Approve Street Closure Request

Motion made by Elenbaas and supported by French to approve closure of Chestnut St from Pine St/Lake St intersection to Linden St and at Colfax to Leeson st on September 5, 2026 from 6:00am to 7:30am

Motion unanimously approved.

C. AmVets Birthday Party – Alcoholic Beverage Request

2026-143 Approve Alcoholic Beverage Request

Motion was made by Engels and supported by French to approve the alcoholic beverage request for an AmVets birthday party on August 29, 2026 from 11:00am to 7:00pm

Motion unanimously approved.

D. Veteran's Expo – Banner Request

2026-144 Approve Banner Request

Motion was made by Hopkins and supported by Elenbaas to approve the banner request for the Northwest Michigan Veteran Expo from July 27th to August 3rd

Motion unanimously approved.

CITY MANAGER'S REPORT

A. Flood Update

City Manager, Marcus Peccia, provided an update on flood recovery efforts, noting that the 44 Road Water Operations Center is currently serving as a local site for FEMA and the Small Business Administration to assist residents with filing claims. Residents were encouraged to register with FEMA before the end-of-month deadline and to bring necessary documentation to receive assistance, with reports that payments have begun to be distributed. The City is also actively submitting information to seek reimbursement for expenses incurred during the flood response.

B. PFAS Update

City Manager, Marcus Peccia, provided an update on PFAS-related efforts, noting progress on an \$8.2 million state grant and that an additional federal grant of approximately \$1.4 million is now under EPA review. An engineering plan will be presented to extend municipal water service to residents currently on private wells, including covering the cost to cap and close these wells. While the project is advancing, full implementation is expected to occur in a future construction cycle due to regulatory and administrative requirements.

C. WexExpress Update

Wex Express Executive Director Carrie Thompson provided an update on the Cadillac Wexford Transit Authority, reporting record ridership of more than 15,000 rides in a single month and over 150,000 rides overall. The Transit Authority transports approximately 300 students daily through the School of Choice program, provides transportation for YMCA programs, and transported approximately 1,200 children to Caberfae Peaks during the past year. Thompson also noted that the Authority is seeking renewal of its existing 0.6-mill levy for six years with no increase, maintaining the same millage rate for more than 20 years.

The Transit Authority continues to expand services through state and federal grants, including the New Freedom program operated in partnership with the Council on Aging and Wexford County Veterans Services. The program uses approximately 15 volunteer drivers to transport seniors and veterans to medical appointments throughout the state. Thompson emphasized the Authority's efforts to respond to community needs while securing outside funding and keeping costs low for local taxpayers.

D. Water System Improvements

City Manager, Marcus Peccia, introduced the PFAS Water System Improvements project planning and public meeting, noting that several important details regarding the project remain undetermined. The City intends to explore extending municipal water service to impacted properties in neighboring townships through an intergovernmental agreement, without annexation or other land transfers.

Cadillac City Council Meeting Minutes

July 20, 2026

Page 6

Peccia emphasized that requirements for property connections, grant conditions, and other policy decisions will become clearer once the State provides a draft grant agreement.

The City's engineering consultant, Ernie Sarcofago of Prein&Newhof, presented the PFAS Water System Improvements Project Planning Document, which is required by EGLE as part of the grant process. The plan evaluates project alternatives, environmental and cultural impacts, and public comments before the City adopts a resolution approving the plan.

The City's water system includes six groundwater wells, an elevated water tower, and an extensive distribution network, while numerous private wells remain throughout the community. Testing has identified PFAS contamination at several private wells, creating ongoing concerns for private well users.

The proposed plan includes five projects, including water main extensions, a larger western extension to improve system connectivity, and connections for up to 170 properties that already have water main frontage. The projects are estimated to cost approximately \$8.2 million and would provide a comprehensive system connecting affected properties to the municipal water system, including a potential extension into Harford Township.

The engineering team reviewed potential environmental and cultural impacts, including wetlands, floodplains, historic resources, global interests, endangered species, and critical habitats, with no significant concerns identified. Approval of the resolution would formally adopt the project planning document and authorize the next steps in the state and federal grant process.

Mayor Powell did not have any comments.

Resident, Steve Shuling, submitted a letter supporting the proposed project to extend municipal water service to homes currently served by private wells. He cited improved reliability and water quality, reduced maintenance and treatment costs, and the elimination of unexpected well and pump expenses as benefits of connecting to the City's water system.

Julie Anne Kinnard expressed support for the proposed municipal water connection project, noting that her property would be affected by the project. She requested that consideration be given to allowing homeowners who prefer to retain their private wells to do so.

Mayor Powell closed public comments.

2026-145 Water System Improvements

Motion was made by Elenbaas and supported by Hopkins to adopt Resolution 2026-3651 supporting the project plan document and authorizing Marcus Peccia, City Manager, to serve as the city's authorized representative for the funding application and related project activities.

Motion unanimously approved.

E. Ice Storm Reimbursement

Cadillac City Council Meeting Minutes

July 20, 2026

Page 7

2026-146 Ice Storm Reimbursement Resolution

Motion was made by Elenbaas and supported by Hopkins to adopt Resolution 2026-3652 State Disaster Contingency Fund Grant Request and Authorize Owen Roberts, Director of Finance, to act as representative for the application of financial assistance and provide the state any required information.

Motion unanimously approved.

F. Fire Department Ballot Wording

City Manager, Marcus Peccia, presented proposed ballot language for a 1.85-mill special levy dedicated to funding Fire Department personnel, apparatus, and equipment. The Fire Department responds to approximately 2,700 calls annually and currently operates a 27-year-old fire engine and 32-year-old ladder truck, with replacement costs estimated at more than \$3.5 million. The proposed levy would generate \$1.85 per \$1,000 of taxable value, with an average single-family home estimated to pay approximately \$104 annually, or \$8.67 per month. If approved by Council, the proposal would be placed before the November general election ballot.

2026-147 Ballot Proposal Language Fire Department Millage

Motion was made by Elenbaas and supported by Hopkins to adopt Resolution 2026-653 approving ballot proposal language that would create a millage for 10 years to provide funds for fire department personnel, apparatus and equipment.

Motion unanimously approved.

G. Butterfly Energy Infrastructure proposal

Schneider Electric and Butterfly presented an advanced resilient energy infrastructure proposal designed to improve the City's energy efficiency, reduce utility costs, and strengthen critical infrastructure. The proposal would require no upfront capital from the City, with Butterfly financing, owning, operating, and maintaining the installed improvements over a 15-year agreement. The proposed \$4.4 million investment would primarily fund solar generation and battery storage, along with HVAC upgrades, lighting improvements, SCADA software, variable frequency drives, and other energy-efficiency measures.

The proposal would focus on City Hall, the wastewater treatment plant, the main water building and well fields, and a secondary well field location. Solar and battery storage systems at City Hall and the wastewater treatment plant would provide microgrid capabilities, allowing critical operations to continue during power outages. The system would also reduce demand charges and is projected to lower the City's overall energy costs by approximately 65%.

Butterfly would assume the performance risk and would be responsible for maintaining and repairing the installed equipment throughout the agreement. The City would receive a share of demand-response revenue and additional savings if the project exceeds the projected 70% savings threshold. At the end of the 15-year agreement, the City would own the equipment outright or could explore renewing the agreement for additional upgrades.

Cadillac City Council Meeting Minutes

July 20, 2026

Page 8

Council members discussed the proposal's long-term financial implications, equipment maintenance, solar production during cloudy and snowy weather, visual impacts, and the ability to use local contractors. Representatives stated that the project would be privately financed rather than government funded, with Butterfly having raised approximately \$600 million through private markets for similar projects. The representatives also noted that the proposal would be the company's first municipal project, although the individual technologies and services included have been widely implemented at other facilities.

2026-148 Budderfly Agreement to Improve Emery Infrastructure

Motion was made by Elenbaas and supported by Engels to waive competitive bidding and authorize an agreement with Budderfly to have Schneider Electric and Budderfly modernize municipal infrastructure and improve resilience against power disruptions.

Motion unanimously approved.

H. City Manager Adjustment

2026-149 City Manager Compensation Adjustment

Motion was made by Elenbaas and supported by French to adjust compensation retroactive to July 1st, 2026 by 2% to direct the city attorney to document the change in wealth of the city council members of the employment agreement, and authorize the mayor to execute the agreement once approved to form by the city attorney.

Ayes: Elenbaas, French, Hopkins

Nayes: Engels Mayor P. 1

Motion approved.

ADOPTION OF ORDINANCES AND RESOLUTIONS

A. MSHDA Grant Resolution Approval

2026-150 Public Hearing for MSHDA Grant Application Consideration

Motion was made by Engels and supported by Hopkins to set a public Hearing for August 17, 2026 at 6:00 pm during the city council meeting to consider an application from the city for a MSHDA Community Development Block Grant.

Motion unanimously approved.

MINUTES AND REPORTS OF BOARDS AND COMMISSIONS

Cadillac City Council Meeting Minutes

July 20, 2026

Page 9

C. Cadillac West Corridor Improvement Authority Minutes – May 14th, 2026

PUBLIC COMMENTS

Carol Borski asked where residents can obtain records showing that private businesses, mobile home parks, and other developments agree to comply with City of Cadillac rules and regulations. She requested guidance on whether the information is available through the City Clerk, Planning Department, or County offices so she can address concerns regarding her private mobile home park.

Bob Verdi, Secretary of the Cadillac Firefighters Local 704, thanked the Mayor, City Council, City Manager, and Public Safety Director for hearing their concerns and advancing the proposed fire department millage. He stated that the firefighters look forward to educating the community about the proposal and its potential to improve firefighters and public safety.

GOOD OF

City Manager Marcus Peccia explained that mobile home parks are subject to different state regulations that limit the City's ability to enforce certain matters, but staff will follow up with the resident to determine whether assistance can be provided. He also addressed concerns about activity along the Clinton River Greenway, noting that although it is a public space, certain restrictions cannot be imposed, and existing park rules remain in effect. The City Manager stated that the Police Department is aware of the situation and continues to address the ongoing activity.

ADJOURNMENT

Respectfully Submitted,

David C. Powell

Keri Lanning, Deputy City Clerk

PROCLAMATION
In Honor of Bill Allen & Lincoln Field

WHEREAS: Bill Allen was originally from Traverse City, then became a Cadillac Area Public Schools educator, retiring after 26 years of service; and

WHEREAS: Bill grew up playing team sports in high school and morphed into the referee and umpire role during intramural programs at Michigan State University during the mid-1970's; and

WHEREAS: Bill has spent 50 years officiating baseball, softball and basketball all the way up to the MHSAA level. He was inducted into the Basketball Coaches Association of Michigan's Hall of Honor. Along with years in schools, he umpired Fast Pitch Softball at Lincoln Field; and

WHEREAS: Lincoln Field started hosting Cadillac High School football from 1927 until 1956; and

WHEREAS: Lincoln Field has been used from the 1950's to the 1980's for Fastpitch Softball; and

WHEREAS: Lincoln Field is now utilized by Cadillac High School Lady Vikings Softball;

THEREFORE, BE IT RESOLVED, that the City of Cadillac wishes to formally recognize and thank Bill Allen for his outstanding efforts and commitment to our community for 50 years. The City of Cadillac recognizes Lincoln Field will be celebrating 100 years as a facility in 2027.

BE IT FURTHER RESOLVED THAT I, Robert Engels, Mayor Pro-Tem of the City of Cadillac do hereby convey this special recognition to Bill Allen and the Lincoln Field on this 17th day of August, 2026.

Robert Engels, Mayor Pro-Tem
City of Cadillac

Application for Appointment to Standing and Special Committees, Boards & Commissions

The information provided on this form is for the use of the Cadillac City Council in its deliberation to fill vacancies on standing and special committees, boards and commissions. Applications will be accepted until enough applications are received to create the Courthouse Hill Historic District Expansion Study Committee.. Applicants may be required to interview with the City Manager for appointment consideration.

Phone Number: [REDACTED] Email Address: [REDACTED]

Date available for Appointment: 9/1/2026

*Info Available to Public Phone Number: [REDACTED] Email Address: [REDACTED]

Please complete the following. You may use additional sheets as needed.

Community Service

List boards, commissions, committees or community service organizations that you are currently serving or have served upon, offices held, and in what municipality or county. **I have not served on any boards, commissions, committees or community service organizations in my past.**

Employment and Education

List any employment experience or education that, in your opinion, best qualifies you for this appointment. List job titles, duties (current and past), level of education and any certificates or degrees you have obtained. **I am a Creative Producer for a Design / Advertising Agency. So the skillset I will bring to the table is to think both creatively to solve community problems or issues as well as problem solving issues from an objective, operational point of view.**

Have you ever worked for the City of Cadillac? ☐ Yes ☒ No

If yes, please list dates and names of departments.

Why do you have interest in serving on this board/commission/committee?

Historic Preservation Experience

Why are you interested in joining the Courthouse Hill Historic District Study Committee?

I want to serve my community in any way I can. I plan to live here for the rest of my life so I want Cadillac to be the best version it can possibly be.

Please explain your background or experience in historic preservation (if any)

I have lived in older homes since 2018 and I cherish preserving the past. To me preserving history is preserving someone's legacy, whether it's a person or a whole town. This is important to me.

Have you ever served on any committees related to historic preservation? If so, which ones?

I have not.

Are you associated with any local historic preservation organizations? If so, which ones?

I am not

Personal

Rules of law and ethics prohibit appointees from participating in and voting on matters in which they may have a direct or indirect financial interest. Are you aware of any potential conflicts of interest? ☐ Yes ☒ No

If yes, please indicate potential conflicts.

Are you aware of the time commitment necessary to serve on the committee, board and/or commission to which you seek appointment, and will you have such time? ☒ Yes ☐ No

Please provide information about specific training, education, experience or interests you possess that qualify you as an appointee to the position you seek.

I hereby certify that the preceding information is correct to the best of my knowledge.

Hi Mallory

A parade request for Cadillac Area Public Schools Homecoming is attached along with an image of the route etc. This is the route and staging from last year. The staging was adjusted from previous years with Ken Payne's assistance but the route remained the same. I have included him in this email. What additional information/forms need to be included? CHS Student Council and I appreciate your time and effort in assisting with this aspect of homecoming. It takes a community and we are grateful for your support.

Thanks. Have an awesome day!

MaLinda Martin Baker

Council Communication

Re: Wexford-Missaukee Child Safety Expo Temporary Sign Request

The Wexford-Missaukee Child Protection Council is hosting the annual Child Safety Expo at the Cadillac Fire Department on September 11, 2016 from 4-6pm. They have requested to place signs in the four planter boxes located at the intersection of Harris and Mitchell. The signs will be placed seven days prior and removed within 48 hours of the event.

This location is in the city right-of-way and must be approved by City Council. The application and image of the sign is attached for review.

Recommended Action

Council is asked to approve the temporary sign permit application for Wexford-Missaukee Child Protection Council to place four yard signs in the right-of-way location as described above, seven days prior to the event and removed within 48 hours.

Council Communication

Re: Social District Permit Application – The Hideout Saloon (210 S. Mitchell St.)

The City has received a complete Social District permit application from **The Hideout Saloon**, located within Cadillac's Downtown Social District at **210 S. Mitchell St.**

Under Michigan law (MCL 436.1551), qualified liquor licensees seeking to participate in an established Social District must obtain a local governing body resolution using the standard form prescribed by the Michigan Liquor Control Commission (MLCC). Council action on this item fulfills the state's local authorization requirement; it does not constitute final issuance or approval of the permit, which remains under the sole authority of the MLCC.

Staff have verified that The Hideout Saloon has provided a complete application packet, including all supporting documentation and proof of eligible MLCC licensure.

The address at 210 S. Mitchell St. has an established history of Social District participation. The business previously located at this address was awarded a Social District permit by both the City Council and the MLCC.

Attached to this communication is the required MLCC resolution form (*Form LCC-208*). Upon Council approval and execution by the City Clerk, the completed document will be returned to the applicant.

The applicant will submit the executed resolution along with their master application to the state. The Hideout Saloon may not begin sales in Social District containers until the MLCC completes its final review and officially issues the state permit.

Recommended Action

Motion to approve the resolution to complete the required local authorization step for The Hideout Saloon.

Local Governmental Unit Approval For Social District Permit

Instructions for Governing Body of Local Governmental Unit:

A qualified licensee that wishes to apply for a Social District Permit must first obtain approval from the governing body of the local governmental unit where the licensee is located and for which the local governmental unit has designated a social district with a commons area that is clearly marked and shared by and contiguous to the licensed premises of at least two (2) qualified licensees, pursuant to MCL 436.1551. Complete this resolution or provide a resolution, along with certification from the clerk or adopted minutes from the meeting at which this request was considered.

At a _____ meeting of the _____ council/board
(regular or special) (name of city, township, or village)

called to order by _____ on _____ at _____
(date) (time)

the following resolution was offered:

Moved by _____ and supported by _____

that the application from _____
(name of licensee - if a corporation or limited liability company, please state the company name)

for a **Social District Permit** is _____ by this body for consideration for approval by the
(recommended/not recommended)

Michigan Liquor Control Commission.

If not recommended, state the reason: _____

Vote

Yeas: _____

Nays: _____

Absent: _____

I hereby certify that the foregoing is true and is a complete copy of the resolution offered and adopted by the _____
council/board at a _____ meeting held on _____
(regular or special) (date) (name of city, township, or village)

I further certify that the licensed premises of the aforementioned licensee are contiguous to the commons area designated by the council/board as part of a social district pursuant to MCL 436.1551.

Print Name of Clerk

Council Communication

Re: First Presbyterian Church Temporary Sign for Craft Show

First Presbyterian Church is hosting a Craft and Vendor Sale on Saturday, November 14th, 2026 at 221 E Harris Street. The church is requesting to place a sandwich board style sign, in the right-of-way at the corner of N. Harris Street and Mitchell Street. The sign would be placed in the right-of-way the day of the event. The sign is proposed to be 30” by 24” sandwich board and will state “Craft & Vendor Show Today.” An image of the requested two-sided sign is attached with the application for your review.

Requested Council Action

Council is asked to approve the temporary sign permit application for First Presbyterian Church to place the sandwich board sign in the right-of-way on Saturday, November 14th, 2026, in coordination with the craft and vendor show.

Date: July 29, 2026

To: Honorable Mayor and Members of the Cadillac City Council

From: Downtown Development Authority Board

Subject: Recommendation of Conditional Support – Development District Class C Liquor License Application for Indian Spice (621 S. Mitchell St.)

Dear Mayor and Members of City Council,

At our regularly scheduled meeting on July 29, 2026, the Downtown Development Authority (DDA) Board evaluated a request regarding a Michigan Liquor Control Commission (MLCC) Development District Liquor License for Indian Spice, located at 621 S. Mitchell Street.

Following review and discussion, the DDA Board voted to formally submit this letter to the Cadillac City Council recommending conditional support for the adoption of a Local Governmental Unit Approval Resolution (MLCC Form LCC-106) for a new **Class C Liquor License** under **MCL 436.1521a(1)(b)**, **subject to the applicant fully satisfying all statutory state and local administrative requirements.**

The DDA Board recommends that City Council's endorsement be contingent upon city staff verifying that the applicant meets all statutory parameters prior to final MLCC submission:

1. District & Building Investment:

- Certification by the City Assessor confirming that public and private investment within the DDA district equals or exceeds **\$200,000** over the preceding five-year period.
- Documentation confirming that at least **\$75,000** has been expended (or committed prior to license issuance) for new construction, restoration, or rehabilitation of the building at 621 S. Mitchell St.

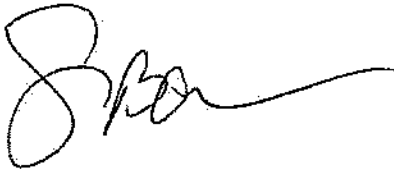

2. **Operational Standards:** Verification that the establishment is open to the general public, or will open to the general public, offers activities related to dining, and maintains a seating capacity of at least **25 persons**.
3. **Escrow Search Compliance:** Proof that the applicant conducted a good-faith search to locate and acquire an existing, readily available escrowed license within Wexford County as required by MCL 436.1521a(9).

Action Recommended to City Council

The DDA Board respectfully requests that City Council consider adopting the required resolution recommending issuance of the Class C Development District License under MCL 436.1521a(1)(b) for Indian Spice, contingent upon city administration verifying all statutory documentation and investment thresholds.

Thank you for your ongoing partnership and shared commitment to the economic vitality of Downtown Cadillac.

Respectfully submitted,

Re: Violation Notice – VN No. VN-019176

Dear Mr. Kline,

This is in response to your letter dated June 10, 2026, in which you informed us of violations that occurred at the Leeson Lift Station. We will describe corrective actions taken, corrective actions that still need to be accomplished and confirmation of Sanitary Sewer Overflow (SSO) discharge reporting requirements.

Corrective Actions that were taken:

- Berms were built.
- Interior of berms was pumped out. This was the flooded station area.
- Temporary portable generator was acquired
- Motors for pumps were dried/reconditioned and connected.
- New motor purchased.
- Temporary Dam built to stop Lake Cadillac water from flowing to Lift Station
- Pumped out flooded areas to various storm ponds
- Permeant Power was restored. This took 2 months.
- Lift station was cleaned on both the wet and dry side.

Corrective Actions that need to still be taken:

- Temporary berm will be made permanent
- Backup generator purchased
- Permanent dam will be built to prevent lake from flooding that area
- Various parts that have been submerged will need to be replaced in time

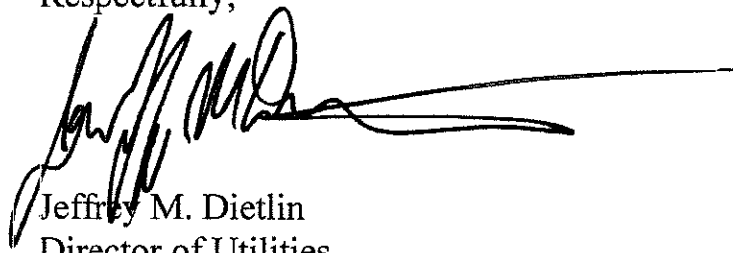

Cadillac does believe this is a once in a lifetime event and that it would be hard for the conditions that caused this event to ever happen again so close together.

Cadillac is confirming its understanding of the requirements to report untreated or partially treated sewage discharge. If in the future this event or a similar event occurs the reporting requirements will be followed.

It should be noted that correspondence with EGLE representatives seemed to indicate that because this is such an extraordinary event that we should get the report in "as soon as possible". No time frame was given.

At no time was it ever expressed that a violation letter **would not be issued** but this correspondence did lend itself to the interpretation that the notification wasn't required within 24 hours because of the unique situation. Please see the attached emails.

Respectfully,

Subject: Division and Lesson Pump Station SSO Reporting

Greetings Jeff and Patrick,

Thank you for making me aware of the flooding issues the Division and Lesson Pump Station is experiencing while onsite yesterday. It is my understanding that the Army Corps of Engineers will be reaching out to assist in determining the structural integrity of the sand berm. I know you all are extremely busy on site of the pump station, but **it is very important to complete the proper SSO reporting as soon as possible**. This includes submitting an initial SSO report to EGLE, notifying the local health department, and notifying the local daily news.

Please let me know if you have any questions or if we can assist in any ways,

Thank you for your time,

Aaron Kline

Subject: SSO Reporting

Greetings Patrick and Jeff,

I am reaching out for another reminder regarding the SSO reporting for the Division and Lesson Pump Station discharge that occurred Sunday, 4/19. An EGLE SSO report, a phone call to the local health department, and a phone call to the local daily news is required to be completed within 24 hours of the discharge occurring and these steps are essential for the protection of public health. My Cadillac WRD district supervisor and upper management is requesting daily flooding updates and would also like to review the SSO report. Please note, if this SSO report is not received by the end of this week, the WRD district supervisor will require a meeting to discuss proper discharge reporting steps.

We also discussed that max flows at the WWTP are unable to be treated in the tertiary treatment process and some of the flow is going from secondary treatment directly to disinfection. This is something EGLE considers a bypass of treatment and should also be reported as an "Other SSO – Discharge of partially treated sewage". All steps mentioned above should be followed for this report as well.

EGLE staff understand you all have your hands full with the historic flooding the city is experiencing, although these reports must be submitted as soon as possible. Please let me know if you have any questions or if we can help in any way.

Thank you for your time,

Aaron Kline

Re: Violation Notice – VN No. VN-019184

Dear Mr. Kline,

This is in response to your letter dated June 10, 2026, in which you informed us of violations that occurred at the Cadillac wastewater treatment plant. We will describe what happened. I do believe this incident meets /exceeds the remedial design standard (RDS) storm event.

The incidents that led to this event are as follows:

- The Cadillac Area experienced an extreme ice storm in March 2026.
- The winter snow accumulation and ice accumulation melted at the end of March.
- Frost was still in the ground in April with no place for the snow/ice to infiltrate into the ground
- April had 11.79" of rain. 11.24" of rain fell in the first 18 days of the month. Please see attached rainfall report.
- Lake Cadillac and Lake Mitchell both overflowed their banks and water redistributed to low laying areas and flooded homes and sewers.
- The Cadillac Dam on the Clam River was completely open for March 2026 until Early July 2026. The Clam River is the only outlet for Lakes Cadillac, Lake Mitchell and the Mitchell swamp.
- The lake level high was 1292.5 Feet. This is 30" above the court ordered spring level of the lake.

I do believe when all the above information is taken into consideration it is easy to determine that the RDS was exceeded.

The water levels in the lake were higher than in the surrounding areas. Water, as you know, seeks the low areas. This caused major flooding of the city infrastructure and of residents' personal property.

This flooding allowed water to infiltrate into the sewer system through sewer lids and residential plumbing that was underwater for several days/weeks. This eventually caused the wastewater plant to partially bypass the tertiary treatment process of the plant.

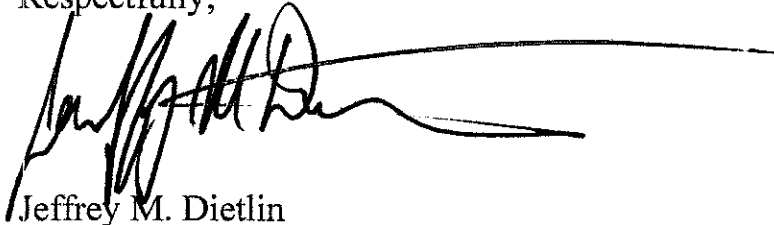

Cadillac does believe this is a once in a lifetime event and that it would be hard for the conditions that caused this event to ever happen again so close together.

Cadillac is confirming its understanding of the requirements to report untreated or partially treated sewage discharge. If in the future this event or a similar event occurs the reporting requirements will be followed.

It should be noted that correspondence with EGLE representatives seemed to indicate that because this is such an extraordinary event that we should get the report in "as soon as possible". No time frame was given.

At no time was it ever expressed that a violation letter **would not be issued** but this correspondence did lend itself to the interpretation that the notification wasn't required within 24 hours because of the unique situation. Please see the attached emails.

Subject: SSO Reporting

Greetings Patrick and Jeff,

I am reaching out for another reminder regarding the SSO reporting for the Division and Lesson Pump Station discharge that occurred Sunday, 4/19. An EGLE SSO report, a phone call to the local health department, and a phone call to the local daily news is required to be completed within 24 hours of the discharge occurring and these steps are essential for the protection of public health. My Cadillac WRD district supervisor and upper management is requesting daily flooding updates and would also like to review the SSO report. Please note, if this SSO report is not received by the end of this week, the WRD district supervisor will require a meeting to discuss proper discharge reporting steps.

We also discussed that max flows at the WWTP are unable to be treated in the tertiary treatment process and some of the flow is going from secondary treatment directly to disinfection. This is something EGLE considers a bypass of treatment and should also be reported as an "Other SSO – Discharge of partially treated sewage". All steps mentioned above should be followed for this report as well.

EGLE staff understand you all have your hands full with the historic flooding the city is experiencing, although these reports must be submitted as soon as possible. Please let me know if you have any questions or if we can help in any way.

Thank you for your time,

Aaron Kline

VN No. VN-019184

VIA EMAIL

Jeffrey Dietlin, City of Cadillac
200 North Lake Street
Cadillac, Michigan 49601

Dear Jeffrey Dietlin:

SUBJECT: Violation Notice (VN) - Cadillac Wastewater Treatment Plant (WWTP)

The Department of Environment, Great Lakes, and Energy (EGLE), Water Resources Division (WRD), has determined that the Cadillac WWTP is in violation of Part 31, Water Resources Protection, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (NREPA), MCL 324.3101 et seq., and the administrative rules promulgated thereunder being 2006 AACRS R 323.2101 et seq., as amended.

The 'Report of Discharge' (Report), submitted by you, indicated that approximately 16.369 million gallons of partially treated sewage were discharged to the Clam River during a bypass event that lasted from April 16, 2026, to April 29, 2026. Specifically, the Report stated that 11.75 inches of rainfall from April 1, 2026, through April 18, 2026, caused the WWTP's tertiary treatment system to overflow into the bypass channel, followed by subsequent rain events throughout the remaining of April that prolonged the bypass. All of the discharge went through pretreatment, primary treatment, secondary treatment, and ultraviolet (UV) disinfection, while the tertiary treatment system is only capable of treating a maximum of 3.5 million gallons per day. During this wet weather period, the facility experienced peak flows nearing 5.0 million gallons per day.

Additionally, this Report of Discharge, as well as the other reporting requirements required within Section A.6. of the NPDES permit (e.g. notification to the local health department and notification to the local daily newspaper) were not completed within 24 hours of the discharge occurring. This is a violation of the NPDES permit and Section 324.3112a of NREPA.

The discharge of raw or partially treated sewage from a sewer system onto land or into the waters of the state constitutes a violation of Part 31 of the NREPA. While EGLE does not authorize the discharge of raw or partially treated sewage, enforcement discretion may be considered for communities experiencing wet weather-related SSOs - provided those communities are actively implementing an approved corrective action program, or have completed an approved program that is designed to ensure adequate conveyance and treatment of flows resulting from the remedial design standard (RDS) storm event. The RDS is defined as a 25-year, 24-hour storm event (producing 3.9 inches of rainfall within 24

June 10, 2026

hours) during the April 1 to October 31 growth period, under normal soil moisture conditions and acceptable rainfall distribution, or an equivalent event.

For any wet weather-related SSO event, it is the responsibility of the community to provide sufficient supporting data and information to demonstrate that the event exceeded the parameters of the RDS. This information is critical for EGLE's consideration of enforcement discretion.

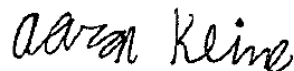

Please submit a written response to MiEnviro by **July 31, 2026**. At a minimum, the response shall include:

1. A detailed description and analysis of the event that resulted in the referenced SSO on April 16, 2026. The report must include a written justification, supported by event-specific data, demonstrating that the rainfall event exceeded the RDS. This should include total precipitation amounts, rainfall distribution, and a description of ground conditions (e.g., antecedent soil moisture).
2. If the events did not exceed the RDS, the response must also include a timeline and description of the corrective actions the City of Cadillac will implement to prevent similar SSOs from occurring during future storm events that are less than the RDS.
3. Confirmation of understanding of the untreated or partially treated sewage discharge reporting requirements and confirmation that these requirements will be followed if there is ever a future bypass from the tertiary treatment system or any other treatment process at the WWTP.

If you have any additional facts you would like us to consider regarding the violations identified in this VN, please provide them with your written response. A schedule of compliance titled, "Submit Corrective Action Plan" has been created in MiEnviro specifically for this purpose and can be found in the Upcoming tab on your MiEnviro Portal Dashboard.

We anticipate and appreciate your cooperation in resolving this matter. Should you require further information regarding this Violation Notice or if you would like to arrange a meeting to discuss it, please contact me at KlineA4@Michigan.gov; 231-429-9452; or EGLE, WRD, Cadillac District Office, P.O. Box 30458, Lansing, Michigan 48909-7958.

Sincerely,

Aaron Kline

VN No. VN-019176

VIA EMAIL

Jeffrey Dietlin, City of Cadillac
200 North Lake Street
Cadillac, Michigan 49601

Dear Jeffrey Dietlin,

SUBJECT: Violation Notice (VN) - Cadillac Contributing Municipality (CM)

The Michigan Department of Environment, Great Lakes, and Energy (EGLE), Water Resources Division (WRD), has determined that the City of Cadillac is in violation of Part 31, Water Resources Protection, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (NREPA), MCL 324.3101 et seq., and the administrative rules promulgated thereunder, specifically 2006 AACRS R 323.2101 et seq., as amended.

On April 19, 2026, WRD was made aware of a Sanitary Sewer Overflow (SSO) associated with the Lesson Lift Station. The city, as well as Lake Cadillac, was experiencing historic flooding during this time as a result of heavy rain events. According to the Report of Discharge (report), approximately 11.75 inches of rain fell in the month of April leading up to the discharge event. On the evening of April 18, 2026, City staff noticed Lake Cadillac had breached and was flowing down Lesson Ave towards the lift station. Sandbags and sand berms were placed around the station while lake water continued to flow down Lesson Avenue and into storm drains that send water to a storm pond neighboring the lift station. By the morning of April 19, 2026, the flood water had completely flooded the storm pond and breached the sand berms. The lift station then became submerged in up to 3 feet of flood water resulting in the electrical equipment burning out and powering off the lift station. From 6:00 a.m. until 8:00 p.m. the three (3) pumps and motors inside the lift station were inoperable, resulting in a discharge of approximately 10,000 gallons of raw sewage into the storm pond and flood waters at the intersection of Lesson Avenue and West Division Street. City staff quickly worked to build a stronger sand berm, dewater the station and to rehabilitate critical electrical equipment. By 8:00 p.m. of April 19, one pump was working and running on a portable generator, lowering sewage levels in the wet well and stopping the discharge from continuing. Currently, all pumps are capable of operating on a portable generator while city staff wait for conditions to better and for Consumers Energy to restore power at the lift station.

Additionally, WRD has determined that this SSO discharge event is in violation of reporting requirements written in your NPDES permit and Section 324.3112a of NREPA. Within 24 hours of a discharge occurring, you are required to report to EGLE WRD, the local health department and the local daily newspaper. These notifications were not completed until May 1, 2026.

In these cases when portions of the sewer system become unusable, customers should be notified as soon as possible in efforts to minimize the discharge. During this discharge event, customers were told to limit sewer usage via social media. Social media is not an adequate platform to relay emergent information on as not everyone is on social media and others may not see the information right away. A city-wide alerting system where residents could subscribe to, to receive phone calls or text messages would be a good way to relay emergent information therefore residents can become immediately aware. If a city-wide alerting system is not used within the City, efforts to report the discharge to the local health department and local daily newspaper should be made sooner than 24 hours, whereas additional notifications can be issued to the public if necessary.

The discharge of raw or partially treated sewage from a sewer system onto land or into waters of the state constitutes a violation of Part 31 of the NREPA. The violations identified in this VN have ceased. The City should take immediate action to achieve and maintain compliance with the terms and conditions of Part 31 of the NREPA.

Please submit a written response in MiEnviro by **July 31, 2026**. At a minimum, the response shall include:

1. A detailed description of corrective actions taken to date to get the lift station dewatered and back online.
2. A detailed description of corrective actions still needed to be taken to rehabilitate all lift station components damaged by flood waters including a timeline for when corrections will be made.
3. Confirmation of understanding of the untreated or partially treated sewage discharge reporting requirements and confirmation that these requirements will be followed if there is ever a future SSO discharge event within the collection system.

If you have any additional facts you would like us to consider regarding the violations identified in this VN, please provide them with your written response. A schedule of compliance titled, "Submit Corrective Action Plan" has been created in MiEnviro specifically for this purpose and can be found in the Upcoming tab on your MiEnviro Portal Dashboard.

Council Communication

RE: Backup Generator Purchase

The City recently received bids for the purchase of a backup generator for the Leeson Lift Station. The previous generator was destroyed in the April flood and needs to be replaced. The following bids were received:

Vendor	Bid	Delivery
Cummins Inc Grand Rapids, MI	\$59,815.00	20 weeks
Standard Power Systems Traverse City, MI	\$60,223.40	12 weeks
Genserve LLC Carol Stream, IL	\$68,940.00	4 weeks
vPrime Tech Inc. Houston, TX	\$60,979.17	20 weeks
Nassau Trading Inc. Woodside, NY	\$62,348.00	40 weeks
PM Technologies, LLC (Cummins) Wixom, MI	\$69,404.94	6 weeks
PM Technologies, LLC (Briggs) Wixom, MI	\$66,729.94	3 weeks
PM Technologies, LLC (Kohler) Wixom, MI	\$65,337.74	6 weeks

Lead time was a critical component in the analysis of costs because the Utilities Department is currently renting a backup generator from Swan Electric at a cost of \$1,285 per week. Staff reached out to vendors to confirm the delivery lead time and the Briggs unit from PM Technologies, LLC will be the most cost-effective solution. PM Technologies has indicated that they have a unit in stock and could even have it delivered within days of authorization to purchase. An estimate of the costs of this purchase was included in the report of damages submitted to the State and FEMA and it is hoped that this will be a reimbursable cost.

Recommended Action

It is recommended that the purchase of a backup generator be awarded to PM Technologies, LLC in accordance with their bid. Funds are available in the Water and Sewer Fund, and the cost will continue to be included in all reports of flood damages sustained.

Council Communication

RE: Stimson Street Improvements

On August 12, 2026, the City of Cadillac held a bid opening on the above referenced project. The following bids were received:

Contractor	Bid
CJ's Excavating, Inc. Cadillac, MI	\$502,755.66
Crawford Contracting, Inc. Mt. Pleasant, MI	\$583,472.42
Elmer's Crane and Dozer, Inc. Traverse City, MI	\$729,661.90
Apex Excavating & Underground, LLC Leroy, MI	\$735,667.50
Wilcox Contracting, LLC Beaverton, MI 48612	\$797,177.00

The work includes the following approximate quantities of major items:

3,600	Syd	Aggregate Base
900	Lft	Sanitary Sewer
510	Ton	HMA, 4EL
600	Lft	Water Main
1,800	Lft	Curb and Gutter

Recommended Action

It is recommended that the contract for the Stimson Street Improvements Project be awarded to CJ's Excavating, Inc. for the bid amount of \$502,755.66. In addition, a 10% contingency is requested for City engineer-approved field changes in unit quantity or scope due to unknowns occurring underground in construction, bringing the total recommended award to a total of **\$553,031.23.**

Council Communication

Re: Out-of-State Travel Request

Per the City of Cadillac's Travel Expense Reimbursement Policy, City Council approval is required for any out-of-state travel by City employees. This communication seeks consent for such travel in accordance with established policy.

The Community Development Director Theresa Waldo, City Manager Marcus Peccia, Mayor David Powell, staff member Abigail Pluger request approval to attend the Leadership Bootcamp, part of the National League of Cities' Pathways for Early Childhood Leadership Initiative, in Boston, Massachusetts, from September 13–16, 2026. The majority of the Bootcamp expenses will be covered primarily by the Bezos Family Foundation. This initiative aims to strengthen local early childhood systems, equip staff with practical tools and peer support, and improve outcomes for children and families. Cadillac is one of only five Michigan communities selected for the 2026 cohort, joining Detroit, Farmington Hills, Sterling Heights, and Westland.

The Bootcamp presents a valuable opportunity for participants to engage with peers and experts nationwide, exchange strategies, and learn best practices in early childhood leadership and municipal system-building. The agenda features interactive sessions, case studies, and collaborative workshops focused on actionable solutions for local government leaders.

The City Manager has reviewed this request and recommends approval. Anticipated costs outside of the Bezos Family Foundation funding are approximately \$1000.00. Sufficient funds are available in the FY2026 budget.

Recommended Action

Approval is recommended for the out-of-state travel request for the Community Development Director and staff, as outlined above.

Council Communication

Re: Request for Commitment of Grant Matching Funds – Wexford County Airport

The Wexford County Airport is a joint venture between the City of Cadillac and Wexford County. The airport is funded by revenues it can generate and additionally supported by contributions from the County and the City. The County funds 60% of the net operating need of the airport, and the City funds the other 40%.

The airport is planning for a major rehabilitation of paved runway 7-25 in 2028. The last rehabilitation of this critical runway occurred in 2008. Airport leadership is working with the MDOT Office of Aeronautics to plan for this rehabilitation. It is anticipated that the Federal Aviation Administration will award a grant to the airport that will cover 90% of the rehabilitation costs, which are projected to be \$1,605,000. The State would pay an additional 5%, leaving the final 5% to be covered by local funds. Project costs and funding sources are summarized as follows:

Total Project Costs	\$1,605,000
<u>Funding Sources</u>	
FAA (90%)	\$1,444,500
State (5%)	\$80,250
Local (5%)	\$80,250
County Portion	\$48,150
City Portion	\$32,100

It is requested that the County and the City commit to funding local matches to enable the rehabilitation to be completed in 2028. Wexford County has committed to their portion of the match.

Recommended Action

It is recommended that the City Council pass a resolution of support and commit funding of \$32,100 to the Wexford County Airport in FY2028.

Council Communication

Re: Adoption of Policy Prohibiting the Use of Excessive Force Against Nonviolent Civil Rights Demonstrators

Recommended Action

The City of Cadillac is required to comply with the Armstrong/Walker Excessive Force Amendment (Section 104(L)(1) of Title I of the Housing and Community Development Act of 1974) in order to remain eligible for Michigan Community Development Block Grants and other federal grant funding. This federal amendment prohibits local law enforcement agencies from using excessive force against individuals engaged in nonviolent civil rights demonstrations within the City's jurisdiction. Noncompliance could jeopardize the City's eligibility for current and future grant opportunities.

In addition, the City is required to enforce all applicable State and local laws prohibiting the physical barring of entrance to or exit from facilities or locations that are the subject of such nonviolent civil rights demonstrations.

Recommended Action

It is recommended that City Council make a motion to adopt a resolution establishing a formal policy that prohibits the use of excessive force by local law enforcement against individuals participating in nonviolent civil rights demonstrations, and affirms the City's responsibility to enforce State and local laws against physically barring entrance to or exit from related facilities or locations.

CITY OF CADILLAC

RESOLUTION NO. 2026-3654

A RESOLUTION ADOPTING A POLICY PROHIBITING THE USE OF EXCESSIVE FORCE AGAINST NON-VIOLENT CIVIL RIGHTS DEMONSTRATORS

At a meeting of the City Council of the City of Cadillac, Wexford County, Michigan, at the Cadillac Municipal Complex, 200 N. Lake Street, Cadillac, Michigan on August 17, 2026, at 6:00 p.m.

PRESENT: _____

ABSENT: _____

The following preamble and resolution were offered by _____ and seconded by _____ .

WHEREAS, the Congress of the United States has passed the Armstrong/Walker Excessive Force Amendment (Section 104 (L)(1) of Title I of the Housing and Community Development Act of 1974 as amended) prohibiting the use of excessive force by a local law enforcement agency against any individual engaged in nonviolent civil rights demonstration within its jurisdiction; and

WHEREAS, the City of Cadillac may apply for a Michigan Community Development Block Grant and is required to comply with the Armstrong/Walker Excessive Force Amendment pursuant to 24 CFR § 91.225(b)(5); and

WHEREAS, the use of excessive force against demonstrators may cause the City to lose its eligibility for Michigan Community Development Block Grants or future federal grants.

NOW, THEREFORE, the City Council of the City of Cadillac, Wexford County, Michigan, resolves as follows:

1. It is the policy of the City of Cadillac that the use of excessive force is prohibited by local law enforcement agencies against individuals engaged in nonviolent civil rights demonstrations within the City.

2. It is the policy of the City of Cadillac to enforce applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of such nonviolent civil rights demonstrations within its jurisdiction.

3. Any resolution that conflicts with this Resolution is rescinded to the extent necessary to give this Resolution full force and effect.

YEAS: _____

RESOLUTION NO. 2026-3655

**RESOLUTION AMENDING GENERAL APPROPRIATIONS ACT
FOR FISCAL YEAR 2027**

At a regular meeting of the City Council of the City of Cadillac, Wexford County, Michigan, held in the Council Chambers, Cadillac Municipal Complex, 200 North Lake Street, Cadillac, Michigan, on the 17th day of August, 2026, at 6:00 p.m.

PRESENT: _____

ABSENT: _____

The following preamble and resolution was offered by _____ and seconded by _____.

WHEREAS, the City adopted Ordinance No. 2026-06, Ordinance Adopting General Appropriations Act for Fiscal Year 2027 ("General Appropriations Ordinance") on May 18, 2026, which approved a general appropriations act for the 2027 fiscal year; and

WHEREAS, Section 10.5 of the City Charter provides that the City Council may make additional appropriations during the fiscal year for unanticipated expenditures required of the City; and

WHEREAS, Section 9 of the General Appropriations Ordinance authorizes the City Council to make such additional appropriations by resolution; and

WHEREAS, the City Council has determined that additional appropriations are required due to unanticipated expenditures;

NOW, THEREFORE, the City Council of the City of Cadillac, Wexford County, Michigan,
resolves as follows:

1. The general appropriations act for the 2027 fiscal year is hereby amended in
the manner set forth in the attached Exhibit A, which is incorporated by reference.

2. Any and all resolutions that are in conflict with this Resolution are hereby
repealed to the extent necessary to give this Resolution full force and effect.

- A. Motion to approve May 22, 2026, minutes by Baumann. Supported by Rice.

- a. Motion approved unanimously on a roll call vote.

New Business

- A. Master Plan

- a. Timmer referenced the draft master plan survey that was included in the packet. Timmer asked the commission if they had any questions pertaining to the survey that they wanted to address before going through the survey question by question. Putvin stated that commissioner questions can be asked as staff move through the survey. Timmer walked the commission through the online survey question by question. Timmers stated that questions that have an asterisk next to them are mandatory. Bosscher asked if multiple options are available to be checked for question number one. Timmer stated that only one option is available to be checked as we are looking for their primary relationship. Timmer stated that if the 'other' option is checked they must specify. Timmer stated that staff felt it was important to keep the survey to 15 – 20 questions as to avoid loss of interest in the survey. Putvin asked if this survey would be printed. Timmer stated that staff plan to have printed copies available at the front desk as well as at the events staff plan to attend throughout July. Baumann asked for staff feedback on Carder's email with suggested survey questions. Timmer stated that if the commission feels specific related topics are necessary those questions could be asked. Baumann stated he agreed that specifics aren't appropriate for this poll but acknowledge the fact that there is give and take on all questions. Bosscher stated that if we don't ask some of these hot button questions, then how are we going to know what we want Cadillac to look like. Baumann stated that the

Master Plan sets the guidance and the zoning ordinance sets the specifics and the tactics. Waldo stated that she feels that talking about a zoning map may help with these questions. Timmer stated that while these are the proposed survey questions, staff have also put together questions and engagement activities for popup events and the open house. Timmer stated that question six of Carders email is set to be similarly utilized as a mapping exercise at the open house. Waldo stated that she plans to go over these specifics next. Waldo suggested adding a question asking what they would like to not see in Cadillac. Waldo suggested that in question number 12, Downtown and the West Corridor questions be split to allow for answers to both districts. Powell agreed with this recommendation stating that it is important to see the data in both districts. Bosscher stated that having data that is usable to steer the direction of the master plan is important. Timmer asked Bosscher what additional questions he would like to see asked. Bosscher stated he would like to see hot button items asked. Bunce asked who the demographic was for outreach as he sees the answers differing depending on demographic. Timmer asked the commission if they would like to see a question related to the age of the individual taking the survey. The commission agreed to add this question. Waldo stated that there have been previous complaints regarding the number of people taking the surveys. Waldo stated that she is going to come up with fun creative ways to promote the survey and get a greater response rate. Timmer explained how the staff plan to interact with people at a pop-up event and the questions and activities that would take place. Timmer stated that a QR code of the survey would be displayed at these events as well as printed surveys. Timmer stated that the plan is to attend an event at the library, farmers market, concert series, arts festival, freedom festival and hold an open house on July 20th. Timmer stated that the goal is to gather all the data from the survey, pop-up events and the open house and have a summary available to the commission at their July meeting. Timmer stated that so far in tonight's meeting she has heard a request to separate the DDA and West Corridor into two questions and add a question regarding the age of the participant. Timmer asked if there were any other additional questions or deletions the commission would like to see from the survey. Powell stated that question 13 related to what business would you like to see more of may not be needed, as one would think we would want to see them all. Host stated that she feels people are interested in certain things and will let you know. Waldo suggested adding a question asking what they would not like to see. Baumann suggested ranking questions for future surveys. Timmer stated that ranking is a good idea, however sometimes it can be time consuming. Timmer stated that another option would be to have them pick their top 3-5 verses the ability to select all. Powell stated that he liked the top three selections and asked that it be applied across the whole survey where applicable.

- b. Timmer turned the meeting over to Waldo who provided a brief presentation regarding the open house scheduled for July 20th at 5:00pm. Waldo provided the outline of the popup events scheduled, July 8th from 10a-1pm at the Library, July 10th from 9am-2pm at the Farmers Market, July 13th from 6pm-9pm at the pavilion for the Clam Lake Band, July 17th from 10am-5pm for the Arts Festival. Waldo stated that with the varying time slots she hopes to reach the greater community. Waldo stated that she looks forward to providing the commission with the data from these events at their next meeting.

Old Business

None.

Communications

A. Work Session Recap

- a. Waldo asked the commission if there was anything they would like to discuss from the work session. Powell asked if an updated timeline be provided. Timmer stated that the updated timeline will be emailed this week along with the survey and open house information. Timmer reminded the commission that the proposed draft articles are always available online on our website.

- B. Waldo shared that a Safe Routes to School walking audit will be taking place tomorrow, Tuesday, June 23rd from 1:00 – 3:00pm. Timmer stated that the City is applying for a SRTS grant to enhance routes to school. Timmer stated that the application is due by the end of September. Bosscher asked what the grant will be used for if awarded. Timmer stated that there is a lot that goes into the grant application and the specifics are linked to improvement located within a certain radius of the school. The scheduled walking audit will help to identify the proprieties which then will be applied for. Timmer gave examples; replace aging sidewalk, develop sidewalk where there currently is none, make intersections safer, establish paths or trails etc. Powell stated that there is no match for this grant. Timmer stated that was correct and also that there is no max award dollar per school either. This is due to Cadillac being a part of the Walkability Action Institute program that is administered through MDOT and NACDD. Waldo provided insight on her experiences with SRTS in Manistee.

Public Comment

Michelle Carder, 311 E Harris St, suggested that public comments be moved to the beginning of the meeting prior to decisions being made. Carder stated that she believes specificity is required on the elimination of single family only home districts due to this being the most defining aspect of the master plan. Carder stated that data center issue will need to be addressed in the master plan as it is a real issue.

Randy Lindell voiced his opinion various matters related to the zoning code and master plan updates, crime, sale of city property and consultant compensation. Lindell stated that the lake is one of Cadillacs greatest asset and quality of life for the citizens in the city of Cadillac is the most important.

Braeden Johnigan stated that putting the definition of data centers and defining what we want them to look like is important as there may come a time when we do not get to choose yes or no.

Board Member Comments

Bosscher asked about having public comments at the beginning of the meeting or the end. Putvin stated that he feels it could be added at the end as council meetings offer two public comments sessions. Waldo stated that if public comment is going to be limited to one session, that she recommends that it be held at the end. Powell stated that he likes to have public comments at the beginning and the end as we are here for the people. Powell asked if the commission wishes to have two comment sessions, is this something that city council has to approve of. Timmer stated that she believed the chair could just make that change but asked that legal counsel chime in. Reader stated that the commission could make that change as it's the chair's responsibility to set the agenda. The commission agreed to have two public comment

sessions, one at the beginning of the meeting and another at the end. Powell stated that he did not want to discredit Ms. Carders communication as there are great points.

Adjourn 7:05PM

Planning Commission
June 22, 2026, Special – Work Session Meeting Minutes

Call to Order

Meeting was called to order at 4:30PM

Roll Call

Planning Commission members present: Powell, Baumann, Host, VanPelt, Putvin, Bosscher; Rice & Bunce @ 4:31

Planning Commission members absent: Fent

Staff: Waldo, Peccia, Timmer, Plugger, and Mallory Reader with Foster Swift

Approval of Agenda for June 22, 2026

Motion to amend the June 22, 2026, agenda to move communications to item number four and approve by VanPelt. Supported by Host.

A. Motion approved unanimously on a roll call vote.

Discussion of Proposed Article 10 – Landscaping & Lighting

Timmer provided the commission with an updated copy of Article 10. Timmer stated that minor grammatical changes were made to the initial draft and a new copy was supplied to the commission. Putvin stated that he felt that this article really cleared things up. Timmer stated that currently there is not a detailed Landscaping & Lighting ordinance. While staff has been encouraging developers to utilize landscaping on their sites, there are very little requirements per ordinance. Bunce stated that he likes the ordinance and appreciated the comments laid out regarding the changes and additions. Host stated that this proposed article will make it very clear for developers as to what is required. Putvin asked about enforcement of weeds in landscaping beds. Timmer stated that this is enforceable via property maintenance if they are over twelve inches in length. Plugger stated that this ordinance would dictate what type of landscaping is permitted but would only apply to new sites or if changes are made to existing sites. Putvin asked about the permitting of lilacs. Timmer stated that in the proposed ordinance the MiDNR Guidebook is referenced and would dictate the permitted and not permitted species.

Discussion of Proposed Article 11 – Signs

Plugger stated that the proposed sign ordinance is a complete rewrite and was written with the following goals; Eliminate all regulations by content because the Federal Government made that illegal in 2021, Create an easier to understand ordinance for sign companies and businesses, Create an ordinance that is easier to enforce, with less room for errors (eliminate standards from definitions) and Remove standards for variances from the ordinance and include them in the Zoning Board of Appeals section. Having standards in multiple sections creates confusion and errors. Plugger referenced a brief PowerPoint detailing these goals and various graphics. Plugger stated that murals are now accounted for via ordinance. Bosscher asked how murals will be regulated. Plugger stated that requirements are vague but cannot advertise for business, product, service or activity and it cannot be offensive. Baumann stated that there is no size limitation or permit required. Bosscher voiced his concern of one's taste of mural and asked how we can regulate content. Baumann & Plugger stated that content is not something we can regulate. Host asked if there have been any issues in the past with murals. Plugger stated that there have been no known issues with murals, but there has been with graffiti. Plugger stated that there are standards

regarding placement and suggested more research into what other cities are doing. Waldo referenced Port Hurons ordinance. Pluger continued going through the proposed ordinance highlighting the changes and the structure of the ordinance. Baumann questioned the verbiage pertaining to flag signs and their affixation. Pluger stated that perhaps the language could be changed to read attached to a permanent structure. Baumann agreed with this change. Pluger went through the districts and allowable uses for temporary signs and sandwich board signs. Pluger stated that a few times a year the library and various churches put in requests for temporary signs in ROW to advertise for various events. Pluger stated that the proposed ordinance would all for this use in commercial districts by right but would not be allowed in residential areas. Baumann stated that he would hate to see this option no longer available to churches due to the possibility of them being in residential neighborhoods. Pluger stated she had concerns about this as well and would draft language to allow for this use. Discussion took place on window signs and the reasoning of regulating this for safety concerns of being able to see in. Baumann asked how other communities are regulating window signs. Pluger stated that she was unsure but would research. Pluger continued going through the proposed ordinances highlighting the changes. Pluger provided an image detailing the allowable signs in the downtown district per ordinance today and another showing the allowable signs per the proposed ordinance. Pluger stated that this has not been presented to the DDA yet, but she plans to give a presentation soon. Baumann stated that he is interested in hearing what the DDA has to say about the proposed changes. Pluger asked the board their preferred approach given the current time, finish the sign chart discussion or move onto the ZBA Article communication. The commission stated they would like to finish sign chart discussion. Pluger continued discussing the proposed allowed sign chart for downtown districts. Given the time, Pluger stated that discussion will stop and resume at the Tourist districts section next meeting.

Communications

Article 6 – District Regulations. Pluger provided the commission with their homework for reviewing of the schedule of regulations. Pluger stated that the consultants will be present at the next meeting to go over this article. Bosscher asked for clarification on the proposed changes. Pluger stated that the changes are in red and current is black, if there is no red print, then there are no proposed changes. Pluger encouraged board members to send questions before the meeting as well, allowing her to prepare answers.

Public Comment

Michelle Carder, 311 E Harris, stated that she has no comments on the two proposed article tonight, but wanted to be sure that the commission received her email that was sent today. Pluger stated the email has been provided to the commission in their regular meeting packet.

Board Member Comments

None.

Adjourn 5:42 PM

**MEETING MINUTES
THE CADILLAC HISTORIC DISTRICTS COMMISSION (HDC)
MAY 11, 2026**

Roll Call

The meeting was called to order by Chairperson Carder at 5:00pm.

Commission Members Present: Haney, Dubravec, Moore, Engels

Staff Present: Pluger, Genovich-Foster Swift

Approval of the May 11, 2026 Meeting Agenda

Motion by Dubravec to approve the agenda. Supported by Engels. The motion passed unanimously.

Approval of the April 13, 2026 Special Meeting Minutes

Motion by Moore to approve the April 13, 2026 meeting minutes. Support by Engels. The motion passed unanimously.

Public Comments

None

New Business

- A. 407 E Chapin Work Application: Pluger presented the work application encompassed replacing the shingled cedar roof over the main floor bump out, replacing three windows and repair to the covered porch including a request to replace the columns with fiberglass reinforced columns. The project stemmed from large amounts of water infiltration and wood rot across the roof and covered porch, leading to windows needing replacement and an almost complete rebuild of the covered porch. Pluger detailed historical preservation standards from SHPO, including an extra email stating that wood is the preferred method but some exceptions have been made for fiberglass. Pluger then detailed the Historic Districts Design Guideline Standards for the roof, windows, and porches. All requested elements are allowed by the Guidelines, except for the fiberglass columns which required further discussion by the commission.

The applicant then gave additional information about the project, detailing the extensive wood rot and damage. Bob Cole explained that all 16 columns had been altered at one point in history, because they all were cut off and had metal bases installed. Discussion took place between the commission, the applicants and owners about the condition of the home and the look of fiberglass columns. SHPO and HDC precedent includes exceptions for financial difficulties. Cole explained the wood columns were an additional \$50,000 cost compared to the fiberglass. Chair Carder brought examples of fiberglass materials being used in other Michigan Historic Districts. Carder shared support for this replacement material, given the districts desire to expand and provide areas of lenience in the design guidelines. Discussion took place about tax incentives for this scope of

repair and the look of the materials. Dubravec confirmed all other materials than the columns would be like for like and discussion took place about the decking on the top deck.

Dubravec made a motion to approve the application as presented, including that if the applicants chose to switch to wood columns they do not need to return to the commission, supported by Engels. The motion passed unanimously.

Old Business

- A. District Expansion: Discussion took place about the district expansion. Haney and Dubravec confirmed they plan to join the committee. Pluger updated that the study committee had been distributed to this commission, the historical society, DDA and a notice in the paper. Dubravec updated that Martin Dubravec plans to apply and Mark Bliven expressed interest. Discussion took place about the number of people on the study committee, Pluger shared the goal was 8-12 and Carder thought the original committee had 9 members.
- B. Zoning Code and Master Plan Update: Carder updated on the Planning Commission meeting, that they voted to move forward with the Zoning Code rewrite and a limited Master Plan. Carder inquired if staff had the draft ordinance for the first work session online. Pluger shared that she was not aware if it had been posted yet, but that the staff member responsible for it would email once it was live. Carder inquired with staff about a conversation at a recent meeting about funding sources and the potential to lose funding if the Zoning Rewrite did not get completed. Pluger shared she was not aware of the specifics of that conversation, but the grant for the consultant expires in February and the city is not guaranteed an extension.

Communications

- A. Engels suggested a change in start time to the meeting. Discussion took place with Genovich as to the procedure to change the schedule, by notice on the website and at City Hall. A motion was made by Engels to change the meeting start time to 5:15pm, supported by Haney. The motion passed unanimously.

Public Comments

Commissioner Comments

- A. Haney inquired about updating the Design Guidelines. Pluger explained it is not part of the zoning ordinance and is not part of that scope of rewrite, however some elements may be put into the new ordinance. Discussion took place about updating the design guidelines in coordination with the district expansion. Genovich confirmed that if 3 of the 5 active members were to meet about this it would qualify as an Open Meeting, so only two can meet. Carder and Haney volunteered to put together a draft of new Design Guidelines.
- B. Dubravec inquired about design guidelines for the Cobbs and Mitchell District. Pluger and Carder explained that no design guidelines were created and it is subject to the Secretary of Interior's Standards.
- C. Pluger inquired about design guidelines including dumpster screening, explaining the zoning ordinance does not regulate it. Discussion took place about adding to the Historic Guidelines and the zoning rewrite.

Adjourn

The meeting adjourned at 5:59 pm.
