Subject: IPP Annual Report

Good morning Jeff,

I reviewed the Cadillac IPP annual report for 2023 and have a couple of correction requests on the oversight table. For AAR 6th St., AAR Rinse Tank, Arvco, Fiamm Technologies, and Michigan Rubber are all marked "no" for SNC for pretreatment standards, but there are pollutants listed in the SNC pollutants column. Please correct the report to either answer "yes" for the SNC with pretreatment standards or remove the pollutants from the SNC pollutants column, as appropriate.

For Rec Boat holdings, Sport division and Rec Boat holdings Cruiser division, it is reported that there were no sampling events completed by the POTW. Is this correct? If no sampling was completed, please explain why it wasn't completed, or wasn't needed.

Please revise the report and resubmit. Let me know if you have any questions on what is needed.

Thank you,

Claire Lowe
