Hi Jeff –

I have draft limits for the non-compatible (metals, etc) pollutants completed. I will finish up the draft compatible levels by early next week; then I'd like to meet with you and your staff to discuss before we put the proposed limits into a report for EGLE.

Here's a proposed schedule:

Review Draft limits with Cadillac WWTP staff and site visit to Cadillac Castings facility	Early February 2023
Submit MAHL / local limits report to EGLE	By March 1, 2023
EGLE review and approval	TBD (based on EGLE timeframe)
Submit draft IPP procedures manual to EGLE	By March 15, 2023
Revise Cadillac Castings IU discharge permit	2 weeks after EGLE approval of local limits

Thanks,
Elaine

Elaine,

What is our current time frame for our IPP project? Claire wants to give us an extension but needs to know dates.

Thank you,

Jeffrey M. Dietlin
