Does the facility have a Valid Construction Permit?	Yes
Solid Waste Facility Type	Type II MSW Incinerator Ash Landfill, Type II MSW Landfill
Waste Types Accepted	Commercial, Construction and Demolition, Contaminated Soil, Industrial, Residential, Special Waste
*If Special Waste Accepted	We accept C&D as would be found in normal remodel projects or new Construction projects (commercial and residential). We do accept impacted soil. Most soil accepted has been impacted by fuel. Other special waste such as catch basin cleanings and filter cake is also accepted at the South Kent Landfill with proper waste characterization. We accept Residential, Commercial, and Industrial municipal solid waste. The bulk of the waste is hauled in with route trucks (serving residents and business), roll of trucks, dump trailers, and transfer trailers. We also have several customers that unload their waste by hand at our manual unloading area. The majority of customers using the manual unloading area are residential. We also accept incinerator ash.
