

Wexford County

EXECUTIVE COMMITTEE

Gary Taylor, Chair

NOTICE OF MEETING

The Executive Committee of the Wexford County Board of Commissioners will hold a regular meeting on Tuesday, November 10, 2020, beginning at 4:00 p.m. in the Historic Courthouse, 437 E. Division, Commissioners' Room, third floor, Cadillac, Michigan.

TENTATIVE AGENDA

- A. CALL TO ORDER
- B. ROLL CALL
- C. ADDITIONS / DELETIONS TO THE AGENDA
- D. APPROVAL OF THE AGENDA
- E. APPROVAL OF THE OCTOBER 13, 2020 REGULAR MEETING MINUTES 1
- F. PUBLIC COMMENTS
The Committee welcomes all public input.
- G. AGENDA ITEMS
 - 1. Discussion on Current Litigation Matters
 - 2. Cedar Creek
 - a. Infrastructure Alternatives Inc. (IAI) Monthly Report (*Bob Polanic, Project Manager*) 6
 - b. Infrastructure Alternatives Inc. Agreement 7
 - c. IAI Reliability Study/General Plan 14
- H. CORRESPONDENCE
- I. ADMINISTRATOR'S COMMENTS
- J. PUBLIC COMMENTS
- K. COMMITTEE COMMENTS
- L. CHAIR COMMENTS
- M. ADJOURN

COUNTY OF WEXFORD
EXECUTIVE COMMITTEE MEETING
MEETING MINUTES
October 13, 2020

E.

The meeting was called to order by Chairman Taylor at 4:00 p.m., in the Commissioners' Room of the Courthouse, 437 E. Division, Cadillac, Michigan, 49601.

Members Present: Gary Taylor, Chair; Mike Bengelink, Mike Musta

Members Absent: Julie Theobald

Also Present: Norma Kijorski, Senior Executive Assistant; Janet Koch, County Administrator; Kristi Nottingham, Treasurer

ADDITIONS OR DELETIONS TO THE AGENDA

None.

APPROVAL OF THE AGENDA

A motion was made by Musta and supported by Bengelink to approve the Agenda. A vote was requested. Motion passed unanimously.

APPROVAL OF THE MINUTES

A motion was made by Musta and supported by Bengelink to approve the September 8, 2020, Regular Meeting Minutes. A vote was requested. Motion passed unanimously.

PUBLIC COMMENTS

None.

AGENDA ITEMS

G.1. Discussion on Current Litigation Matters

Ms. Janet Koch reported the following:

McKay Case

- Is being handled by Roger Wotilla.
- Is not related to the Rafaeli decision.
- A scheduling conference date is being sought.

Randolph Case vs. Wexford County and Kristi Nottingham

- This is a proposed class action lawsuit requesting surplus proceeds be returned as described in the Rafaeli decision.
- MMRMA has assigned Allan Vander Laan of Cummings, McClorey to defend the County.
- Mr. Vander Laan has years of experience in foreclosure litigation. His strategy is to file a Third-Party Complaint against the State of Michigan since the County was implementing a statute passed by the State legislature.

Opioid Litigation

- There is nothing new to report.

Discrimination Complaint

- Still no response from the State.

DRAFT

G.2. a. Cedar Creek Water System

Chairman Taylor noted that Mr. Polanic was not present; however, the report was in the agenda packet.

G.2.b. Pescador LLC Remaining 2020 Budget - Landfill

No discussion took place on the information provided in the agenda packet.

G.3. CDBG Authorizing Resolution-COVID-19 Grant

A motion was made by Musta and supported by Bengelink to forward to the full board for approval the Authorizing Resolution for the CDBG grant.

A vote was called. All in favor.

G.4. PFAS Disposal Request

Ms. Koch reported that she thought a representative from EGLE and from GFL Environment were to be present.

She stated several options the Board could pursue regarding the disposal of PFAS at the landfill. A discussion took place.

At 4:05 p.m. Commissioner Julie Theobald; Ms. Vicki Garon, GFL Environmental, and Mr. Bob Polanic, Infrastructure Alternatives Inc., entered the meeting.

Chairman Taylor then recognized Mr. Polanic and asked for his report.

G.2. a. Cedar Creek Water System

Infrastructure Alternatives Inc. (IAI) Monthly O&M Report for September 2020. Mr. Bob Polanic reported the following:

- One customer complaint from September was received, however upon arriving at the location, the water cleared up on its own.
- Fall flushing begins today.
- Samples of VOC and SOC were collected for the 2020 monitoring period.
- Staff continue to regularly check chlorine residuals throughout the water system.

Chairman Taylor requested that the discussion on the PFAS Disposal Request continue.

Ms. Garon stated that AKT had reached out to GFL regarding the disposal. She referenced Bay County's Solid Waste Plan and all counties in that plan have declined to take the waste. Ms. Garon then mentioned that the Belleville landfill is willing to accept the PFAS and since Belleville will accept the PFAS, EGLE cannot insist that Wexford County take the PFAS.

The consensus of the Committee was not to send a motion to the full Board.

The Administrator will inform AKT Peerless Environmental of the Committee's decision.

G.5. Discussion of BOC Response to Recent Threat to the Governor

A discussion took place regarding the threat to the Governor involving a person from the Cadillac area. It was cited that the BOC should denounce the actions against the Governor. It was mentioned that other political officials might also be a target to threats against Legislatures. Rep. Michelle Hoitenga is being made aware dialog.

A motion was made by Bengelink and supported by Musta to have the Administrator come up with a resolution to denounce the actions of kidnapping the Governor or any Politician.

Comm. Theobald mentioned that she received numerous e-mails regarding the incident and chose not to reply. It was also mentioned that Commissioner Potter gave a statement to the Detroit Free Press regarding this incident.

A vote was called. All in favor.

CORRESPONDENCE

Chairman Taylor mentioned the letter from EGLE within the agenda packet.

ADMINISTRATOR'S COMMENTS

Ms. Janet Koch reported the following:

- The first two departments to submit their 2021 budgets were Dispatch and Emergency Management.
- She will be contacting the City again regarding the Warren Street abandonment.
- She has contacted Granger about the Jail roof.
- The Chief Public Defender position will be vacant soon. She is communicating with Judges Fagerman, Ransom, and Van Alst along with the Missaukee County Administrator.
- On Friday, October 9, the Lake Street building lost all information technology servers. Building Department employee, Brooke Fuller, assisted in getting the servers back up and working.

PUBLIC COMMENTS

Mr. Polanic stated that the information within the correspondence from EGLE, his company has been informed and they will take care of the sampling requirements.

COMMITTEE COMMENTS

Comm. Theobald apologized for her lateness. She stated it was due to confusion regarding the meeting location.

Comm. Bengelink inquired about the Lake Street parking lot. Ms. Koch stated she is in possession of a study from 2015. Currently some funds have been set aside and additional funds will be set aside in the next budget.

CHAIR COMMENTS

Chairman Taylor thanked all for attending the meeting.

ADJOURN

A motion was made by Bengelink and supported by Musta to adjourn at 4:20 p.m. A vote was called. All in favor.

Gary Taylor, Chair

Norma Kijorski, Recording Secretary

DRAFT

G.2.a.

Monthly Operations & Maintenance Report

November 10, 2020

Report for Month: October, 2020
Location: Wexford County
Facilities: Cedar Creek Water Plant & Distribution System
Operator in Charge: Bob Polanic, Project Manager

Emergency Call-outs/Customer Complaints

- ❑ 10-13-20 – Low water pressure during flush at 1310 N Mackinaw Trail.

Significant Events:

- ❑ 10-13-20 to 10-14-20 – Performed water system flush.
- ❑ 10-15-20 – EGLE requests engineered Hydraulic Study and Flushing Plan.
- ❑ 10-19-20 – Repair Auto-flusher #3.
- ❑ 10-19-20 – Shut off water at 1480 N Mackinaw Trail and at 1550 N Mackinaw Trail.

Preventive Maintenance:

- ❑ IAI staff continues to regularly check chlorine residuals throughout the water system.

Facilities Data for the Month

Production at Well House	637,700 gallons
Metered Usage (Includes Flushing Hydrants)	434,988 gallons
Metered Reversal Flow at Well House	39,390 gallons
Metered Flushing	159,600 gallons
Difference (% Loss)	3,722 gallons (0.58%)

November 6, 2020

Wexford County
Executive Committee
437 E. Division St.
Cadillac, MI 49601

Cedar Creek Township Water Supply

Executive Committee Members,

Infrastructure Alternatives, Inc. (IAI) is excited to have the opportunity to submit this letter proposal to the Wexford County Executive Committee for continued Operations Services at the Cedar Creek Township Water Supply. As you know, IAI was selected as your service provider in late 2015 to operate this water utility and we have greatly appreciated the opportunity to work with the County over these last five (5) years.

We have formulated this letter proposal in an effort to best suit your needs and with the experience we have attained over the initial operations agreement.

IAI is ready and able to continue support of the Cedar Creek Water Supply with:

- Operations and maintenance staff based out of our nearby Haring Township, Michigan project;
- Providing senior level management and support from our Rockford, MI headquarters;
- Providing additional resources upon request with engineering, technical and mechanical support also based in Rockford, Michigan.

This letter proposal lays out our project approach and strategy to address the needs of this system.

Scope of Services

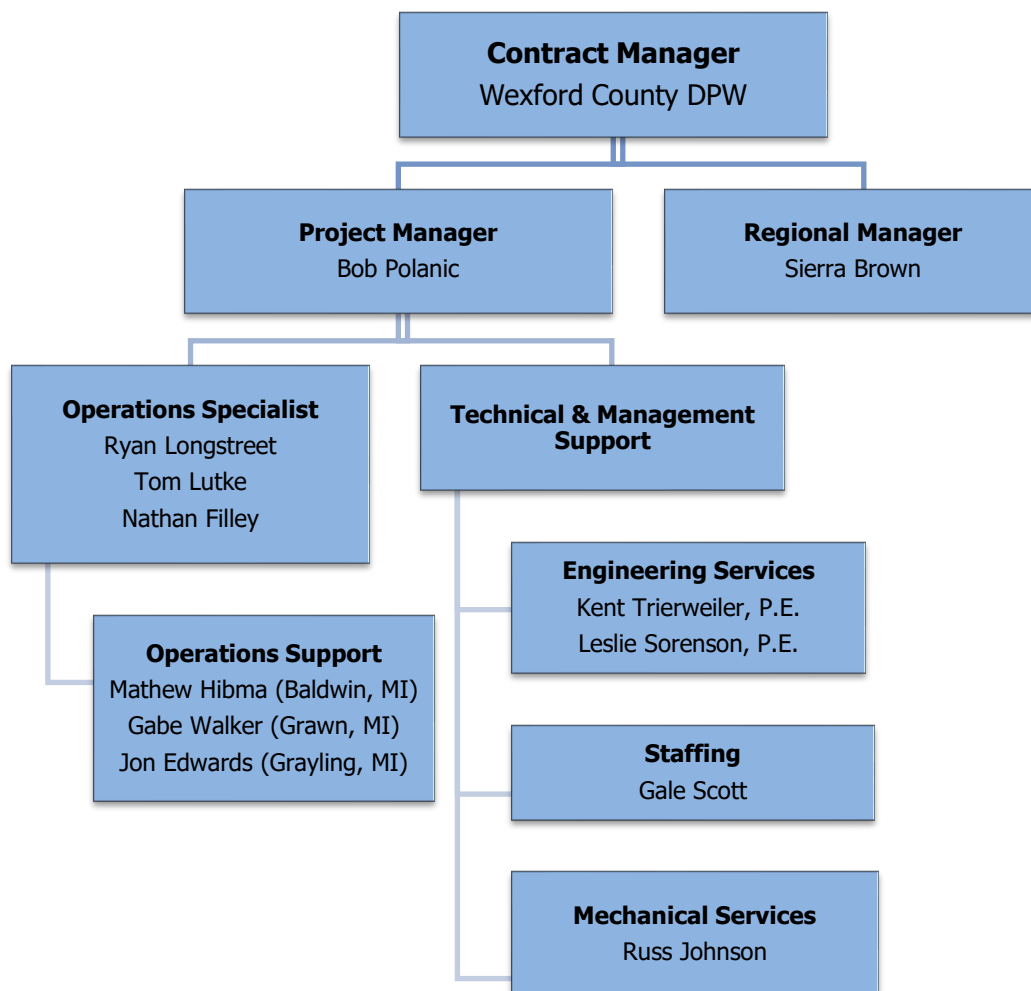

IAI proposes the following scope of work for this project. We will:

- Provide all staff necessary for the operation, maintenance and management of the water system. Person in responsible charge will have possess a Michigan Class D-4, S-4 at a minimum.
- Provide 24 hour per day on-call availability. Project will be serviced from our Cadillac area hub with a less than 30-minute response time.
- Prepare all necessary and required reports by local, State and Federal regulatory agencies
- Provide Wexford County with a monthly operations report.
- Purchase supplies, chemicals, chemicals, tools, etc. necessary for the proper operation and maintenance of facilities.
- Provide monitoring and testing and analytical services required for regulatory reporting purposes as well as routine system operational control purposes.
- Pay for utilities associated with the operation of the water system.
- Pay for all chemicals currently being used in the water system process.
- Continue to maintain standard operating procedures for all major pieces of equipment. Continue to update and utilize the preventive and corrective maintenance program that tracks each system component, necessary preventive maintenance as recommended by its manufacturer. IAI will provide an annual estimate for spare parts.
- Maintain a clean, orderly and aesthetically pleasing appearance to the water system components, building and grounds.
- Serve as the County's liaison and representative in matters related to the operation of the facility. Attend the startup of new equipment and prepare a punch list of items not in accordance with County standards.
- Manage the Cross-Connection Control Program.
- Comply with all local, State and Federal regulations, including the Cedar Creek Township Ordinance 01-07.
- Assume responsibility for all costs and penalties levied against the County for improper operation within the confines of the contract.
- Provide the required insurance coverage.
- Provide customer billing and collection services for current and future customers
- Provide snow removal and ground maintenance
- Provide all analytical sampling and analysis as directed in the current Annual Monitoring Plan

Staffing Plan

As you know, IAI is under contract for the operations and maintenance of the neighboring Haring Township water/wastewater utilities. We have multiple operators providing our services at this location, of which all are currently State of Michigan certified operators. These individuals are ready and able to handle everything from routine system checks to emergency operations 24 hours per day, 7 days per week, 365 days per year.

Bob Polanic serves Haring Township as Project Manager for IAI. He possesses State of Michigan D-2 & S-3 water licenses and Class C wastewater certification. We propose that Mr. Polanic would continue to serve as the certified Operator-in-Charge (OIC) for the Cedar Creek water system.

Cost of Services

IAI propose the following table providing a cost breakdown of Operations and Maintenance.

Cost Component	Annual Amount	Comments
Labor and Benefits	\$25,645	
Utilities	\$8,540	Electricity, telephone & generator fuel
Chemicals/Supplies	\$1,595	Includes chemicals & analytical testing costs
Customer Billing	\$0	Included in Labor component
Customer Service	\$0	These costs are included in labor component
Repair and Replacement**	\$5,000	These costs will be tracked throughout each year, with any unused funds returned to Wexford County.
Vehicles	\$0	Included in Labor component
Total	\$40,780	

**While this water system is still fairly new, the system is starting to reach the age where larger, more costly Repair and Replacement items may present themselves. With this said, the County may want to increase this line item in an effort to be better prepared for these potential expenses.

Non-Routine Operations Services provided upon request and/or mutual agreement outside of the Scope of Services listed above will be invoiced at IAI's Standard Billing Rate of **\$75.00 per hour**.

IAI can also provide **Mechanical, Engineering and Technical Services** for our clients. These services are quote based and can be acquired with a separate/individual agreement.

Proposed Contract Term

IAI would like to propose another five-year contact term for this project, with an annual 2% increase through the duration of the agreement. We have also included a five-year breakdown of contract term invoicing. The terms and conditions in the attached PSA also include a 90-day notice of termination at any time, for any reason.

**INFRASTRUCTURE
ALTERNATIVES, INC.**

Summary

We feel that our approach is of good value to the Cedar Creek Township water system based upon our experience and what has been outlined above. The growth and success of our business is based upon developing and maintaining great partnerships with our clients. We feel that we have that with Wexford County and look forward to continuing to serve the County for years to come.

Thank you again for your continued interest in IAI.

Respectfully,

INFRASTRUCTURE ALTERNATIVES, INC.

October 27, 2020

**Re: Proposal for Engineering Services – Water Reliability Study/General Plan, Flushing Plan
Cedar Creek Water System**

Infrastructure Alternatives, Inc. (IAI) is pleased to offer this proposal for engineering services to Cedar Creek Township. It is our understanding that the Michigan Department of Environment, Great Lakes, and Energy (EGLE) is requiring a comprehensive update of the Reliability Study/General Plan and new Unidirectional Flushing (UDF) Plan to be complete and submitted for the Cedar Creek Township Water System in accordance with the Clean Water Act. The typical components of the General Plan/Reliability Study and Engineered Flushing Estimates of scope and cost are provided as follows:

Scope of Work:

Reliability Study/General Plan

The standard components of a Reliability Study and General Plan are given as follows:

1. Description of the water system including wells, pipe, available storage, emergency equipment, such as generators.
2. An overview map of the system showing all system components.
3. Description of normal system operation.
4. Emergency operations description.
5. Capacity analysis including:
 - Number of existing customers/average and peak flows;
 - Projection of customer base in 5 years/average and peak flows;
 - Projection of customer base in 20 years/average and peak flows.
6. Capability of existing system to meet projected demands.
7. Improvements and funding required to meet future demands if system is deficient for 5-year and 20-year planning periods.
8. Projected cost and schedule to make required improvements to insure system reliability with future growth.
9. Computerized hydraulic model which assimilates any routine or emergency conditions and provides feedback on weak areas of the distribution system.

Unidirectional Flushing Plan

The UDF plan relies on computerization of the water distribution system hydraulic model. Development and update of the hydraulic model goes hand in hand with the Township's Water System Reliability Study, which is built and calibrated to present day conditions on a five year interval. The scope of work for UDF plan is outlined as follows:

1. Computerized hydraulic model, which includes all hydrant and valves to simulate flushing procedures.
2. Model systematic system flushing to meet or exceed minimum standards for water turnover and scour velocity.
3. Prepare comprehensive plan document, including detailed flushing procedure.

Cost of Services Summary:

We estimate the following level of effort to complete the Reliability Study/General Plan and UDF Plan:

Build hydraulic model, fire flow simulations	40 hours @ \$100	\$ 4,000
Prepare Reliability Study/General Plan document	20 hours @ \$100	\$ 2,000
Model flushing procedures	28 hours @ \$100	\$ 2,800
Prepare flushing program document	8 hours @ \$100	\$ 800
Total Estimated Cost		\$ 9,600

We will begin work as soon as possible upon receipt of authorization. Thank you for the opportunity to submit this comprehensive proposal for preparing the Reliability Study/General Plan and UDF Plan for the Cedar Creek water system. If there are any questions or concerns, please do not hesitate in contacting us at (616) 866-1600.

Very truly yours,

Infrastructure Alternatives, Inc.
