

Cadillac Utilities Department

R323.2408 (3) (a) CPLR Compliance Certification

CPLR Certification

(3) A person who applies biosolids to the land shall obtain information needed to comply with all the following requirements:

(a) Before a person applies bulk biosolids subject to the cumulative pollutant loading rates in R323.2409 (5) (b) to the land, the person shall contact the state to determine whether bulk biosolids subject to the cumulative pollutant loading rates in R323.2409 (5) (b) have been applied to the site since July 20, 1993, except when the land has been owned by the generator since July 20, 1993, and the cumulative pollutant loading rate is known. The notification requirements in sub-rule (4) still apply.

(b) In accordance with the above referenced requirements, City of Cadillac is hereby notifying the EGLE of our intent to apply bulk sewage biosolids subject to the cumulative loading rates in rates in R323.2409 and 503.13 to the land application sites listed below.

State	Generator	Site Designation	Location (Latitude and Longitude)
Michigan	City of Cadillac WWTP	21N9W20TC01	44:20:21 N -85:43:39 W
Michigan	City of Cadillac WWTP	21N9W19TC01	44:20:22 N -85:43:99 W
Michigan	City of Cadillac WWTP	21N9W17EK01	44:21:08 N -85:42:85 W
Michigan	City of Cadillac WWTP	21N9W17RW01	44:21:11 N -85:43:20 W
Michigan	City of Cadillac WWTP	21N9W22JR01	44:11:45 N -85:23:27 W
Michigan	City of Cadillac WWTP	21N9W27JR01	44:11:32 N -85:23:23 W

This land was applied to October of 2018.

It is not possible that any other entity has legally applied to these sites after July 20, 1993 due to the existence of the following conditions:

1. City of Cadillac, is the current sole land applier, contracted to apply the generators biosolids to the respective application sites listed.
2. City of Cadillac holds the farmer and landowner agreement for these sites.
