Form Input

Facility (Site) Details

Facility (Site) Name:

Wexford County Landfill (N3862)

Facility (Site) Address (Physical Address)

990 North Mackinaw Trail
Northville, MI 49663-9180
United States

County:

Wexford

Is this a bridge project?

No

If Apt., # of units

NONE PROVIDED

Nearest crossroad

NONE PROVIDED

Size (sq. ft.)

1,000.0

Number of floors

1

Floor number

1

Age (known or estimated years)

20

Present use

Landfill

Prior use

Landfill

Specific location

990 North Mackinaw Trail, Manton, MI 49663

Project Type

EGLE (NESHAP) [260 Ln. ft./160 sq.ft. or more is threshold] / LEO (MIOSHA) [>10 Ln. ft./15 sq. ft. or more is threshold]

Planned Renovation - 10 working days notice / Demolition, Renovation, Encapsulation - 10 calendar days notice

Please follow these guidelines to select the appropriate option below.

- **EGLE only** (Notifications for Scheduled and Ordered Demolitions, Intentional Burns, Planned and Emergency Renovations)
- **LEO only** (Notifications for Demolition/Renovation/Encapsulation and Emergency Renovation/Encapsulation)
- **Both EGLE & LEO** (Combined notifications for Planned Renovation and Demolition, Renovation, Encapsulation OR Emergency Renovation and Emergency Renovation/Encapsulation)

EGLE / LEO Select the appropriate option.

EGLE only

Shortened Proj Type Name

PR

Was an asbestos survey/inspection conducted of the structure(s) or area(s) to be renovated/demolished?

Yes

Please indicate the anticipated days of the week and work hours for the purpose of scheduling a compliance inspection. If the Work Hours are not the same across all of the selected Days of the Week or vary from day to day then check the box below and attach a document with detailed work hours in the Attachments section.

NONE PROVIDED

Asbestos Removal (days of the week)

Monday
Tuesday
Wednesday
Thursday
Friday
Saturday

Asbestos Work Hours (i.e., M-Th 7a-5p, Sat 10a-2p)
Mon-Sat 6pm-6pm

Encapsulation (days of the week)
NONE PROVIDED

Encapsulation Work Hours (i.e., M-Th 7a-5p, Sat 10a-2p)
NONE PROVIDED

What method was used to detect asbestos within the sampled materials?
Other: Asbestos locations are completed by GPS survey throughout the year

Is asbestos present (i.e. assumed or identified in the asbestos inspection report)?
Yes

Estimate the amount of Asbestos: Include RACM (Regulated Asbestos Containing Material) to be removed, encapsulated, etc. Also include the amount and type (floor tile, roofing, etc.) of non-friable Category I and /or Category II ACM that will not be removed prior to demolition.

NOTE: In a demolition, cementitious ACM cannot remain in a structure, as it is likely to become regulated in the demolition/handling process. It must be removed prior to demolition. Also, all asbestos must be removed prior to an intentional burn.

Planned Renovation RACM/ACM

RACM/ACM to be removed	RACM to be encapsulated	Category I	Category II	Units of Measure
100.0	NONE PROVIDED	NONE PROVIDED	NONE PROVIDED	Sq. Ft.

Volume (cubic feet/meters) should be used only if unable to measure by linear/square measure (example: asbestos has fallen off of surface).

Is the disposal site in the state of Michigan?
Yes

Disposal Site Name
WEXFORD COUNTY LANDFILL - 990 N US HIGHWAY 131, MANTON, MI 49663

Waste Transporters

Name	Mailing Address	City	State	Zip
Wexford County Landfill	990 N US Highway 131	Manton	MI	49663

Renovation: Mark all surface/types of RACM to be removed.
Other: Type II Non-Haz Waste

Method of Removal: Describe how the asbestos will be removed from the surface
Other: Drilling and excavation

Encapsulation (for LEO): Mark all surface/types of RACM to be encapsulated.
NONE PROVIDED

Describe the work practices and engineering controls used to prevent visible emissions before, during, and after removal and until proper disposal.
Water spray used to control dust
Adequately wet material

Describe the steps you intend to follow in the event that unexpected RACM is found or previously non-friable asbestos becomes friable (crumbled, pulverized, reduced to powder, etc.) and therefore regulated.
Stop work
Wet material

Additional attachments (optional)
