Notification Info

Notice shall be given at least 45 days prior to excavating or otherwise disturbing any asbestos-containing waste material that has been deposited at a waste disposal site and is covered.

If there are any updates to the 45 day notice, they must be provided at least 10 working days before excavation begins by submitting a new form and selecting the **10-working day revised notice** option below. In no event shall excavation begin earlier than the date specified in the original notification.

Select the notification type that represents your activity.

10-working day revised notice

Start Date of Excavation or Asbestos Waste Disturbance

05/18/2026

End Date of Excavation or Asbestos Waste Disturbance

09/30/2026

Describe the reason for disturbing asbestos waste.

2026 GCCS Construction Upgrades

Describe the procedures to be used to control emissions during the excavation, storage, transport, and ultimate disposal of the excavated asbestos-containing waste material.

Water spray used to control dust

Describe the location where waste will be disturbed as well as temporary and final storage sites.

Wexford County Landfill

Identify the location on the map where the excavation will occur. Zoom to the location and click to set a pin.
