

December 14, 2015

Mr. Jeffrey Dietlin, Water Resources Supervisor
City of Cadillac
200 Lake Street
Cadillac, Michigan 49601

Dear Mr. Dietlin:

SUBJECT: National Pollutant Discharge Elimination System (NPDES)
Permit No. MI0020257
Designated Name: Cadillac WWTP

Enclosed is a copy of the draft National Pollutant Discharge Elimination System permit and public notice/fact sheet draft e-mailed to you on June 26, 2003. Please review these documents carefully. If you have any comments on the terms and conditions of this permit, including information that should be considered in the development of site-specific effluent limitations or comments on the standard permit language, please forward them to us prior to July 22, 2003, so that we can consider them before the draft permit is placed on public notice.

The draft permit authorizes the discharge of storm water, as requested in your application. If this permit is subsequently issued with storm water discharge authorization, a \$200.00 annual storm water fee will be assessed the permittee, in accordance with Act 451, Public Acts of 1994, as amended, Section 324.3118. If you have questions about your storm water authorization, please contact me.

The conditions of this draft permit have been considered on a case-specific basis and the monitoring program is considered the minimum which will assure environmental protection. If you have any questions, please contact me.

Sincerely,

Diane Carlson, P.E.
