Michigan Department of Environmental Quality- Water Bureau

WASTEWATER DISCHARGE PERMIT APPLICATION

SECTION I - General Information

Section I shall be completed by all permit applicants. See Page iii for instructions on completing Section I, Pages 1 and 2. To submit additional information, see Page ii, Item 3.

Water Bureau Use Only Receipt Number: 07-01573 Permit ID #: 73449.1	Cashier Use Only: 37000-40535-9412-481000-00 NP2 629518-3-1 03/28/07 37000 40535 9412 AY 2007 \$750

WASTEWATER DISCHARGE PERMIT APPLICATION
SECTION I - General Information

PLEASE TYPE OR PRINT

FACILITY NAME Cadillac WWTP	NPDES PERMIT NUMBER MI0020257
--------------------------------	----------------------------------

5. PERMIT ACTION REQUESTED (Check one box only) - Instructions for this item are on Page iii.

☐ **NEW USE** A proposed discharge OR an existing discharge that is currently unpermitted.

☒ **REISSUANCE** of current permit.

☐ **MODIFICATION** of current permit. Attach a description of the proposed modification.

Note: Applications for **New Use** discharges and applications for either **Reissuance** or **Modification** that include an increased loading of pollutants to the receiving water are required to submit a Rule 98 Demonstration with the Application. See Item 6.

6. RULE 98 - ANTIDEGRADATION REQUIREMENTS - Instructions for this item are on Page iii.

In accordance with Rule 323.1098 of the Michigan Water Quality Standards, the applicant is required to submit an Antidegradation Demonstration for any new or increased loading of pollutants to the surface waters of the state. An Antidegradation Demonstration must contain the information specified in Rule 1098, Antidegradation section of the Appendix. For assistance completing this item, contact the Permits Section.

Will this discharge be an increased loading of pollutants to the surface waters of the state?

☐ Yes. Submit an Antidegradation Demonstration.

☒ No. Continue with Item 7.

7. ADDITIONAL FACILITY LOCATION INFORMATION - Instructions for this item are on Page iii.

A. Is the treatment facility within municipal boundaries? ☒ Yes ☐ No

B. County Wexford				Township Haring	
C. Town 22N	Range 9W	Section 33	$\frac{1}{4}$ NE	$\frac{1}{4}$, $\frac{1}{4}$ NE	Private (French) Land Claim
D. Latitude N 44 15.118				Longitude W085 23.856	

8. CERTIFIED OPERATOR Does the facility have a DEQ certified operator? ☒ Yes ☐ No Instructions for this item are on Page iii.

First Name Jeffrey		Last Name Dietlin	
Certification Number 10435		Certification Classification(s) A,B,C & D	
Address 1 1121 Plett Ridge		Address 2	
City Cadillac		State MI	Zip Code 49601
Telephone Number (231)-775-2841	Fax Number (231)775-2876	e-mail address wwtpr@cadillac-mi.net	

9. OTHER ENVIRONMENTAL PERMITS

Provide the information requested below for any other federal, state, or local environmental permits in effect or applied for at the time of submittal of this Application form; including, but not limited to, permits issued under any of the following programs: Air Pollution Control, Hazardous Waste Management, Wetlands Protection, Soil Erosion and Sedimentation Control, and other NPDES permits. To submit additional information, see Page ii, Item 3.

FACILITY NAME Cadillac WWTP	NPDES PERMIT NUMBER MI0020257
--------------------------------	----------------------------------

10. WATER FLOW DIAGRAM AND NARRATIVE DESCRIPTION

Provide a flow diagram (using 8½" x 11" paper if possible) showing the wastewater flow through the facility (from intake through discharge), including all processes, treatment units, and bypass piping, and include a narrative description that explains the diagram. Show all operations contributing wastewater and the locations of flow meters, chemical feeds, and monitoring and discharge points. The water balance shall show the daily average flow rates at the intake and discharge points, and approximate daily flow rates between treatment units, including influent and treatment rates. Use actual measurements whenever available, otherwise use the best estimate. Show all significant losses of water to products, atmosphere, and discharge. In addition, provide a flow diagram for any storm water discharges from secondary structures that are required by state or federal law, and for storm water runoff from any Site of Environmental Contamination, pursuant to Part 201 of the Michigan Act. **Do not send blueprints.**

Do the treatment facility processes described above include any lagoons or ponds used for wastewater treatment or storage? ☐ Yes ☒ No
 If yes, include the ponds or lagoons in the flow diagram.

Municipal Facilities - Include a narrative that briefly describes the history of the wastewater treatment facility and collection system, including the initial construction, the facility improvements that have been made, future plans for upgrade, the location of all constructed emergency overflows, and other pertinent information.

Industrial and Commercial Facilities - The line diagram shall include all operations contributing wastewater, including process and production areas, sanitary flows, cooling water, and storm water runoff. **Also include a narrative** that provides a brief description of the nature of the business and the manufacturing processes.

ATTACH THIS INFORMATION TO THIS APPLICATION. PLEASE DO NOT BIND THIS INFORMATION.

11. MAP OF FACILITY AND DISCHARGE LOCATION

Provide a detailed map on 8½" x 11" paper showing the location of the existing or proposed facility, wastewater and biosolid treatment system(s), and wastewater monitoring and discharge points into receiving waters (including bypasses). Include the exact location of the wastewater monitoring and discharge point(s) and all areas through which the discharge flows (e.g., wetlands, open drains, storm sewers), if applicable, between the discharge point and the receiving water. If the discharge is to a storm sewer, label the storm sewer and show its flow path to the receiving water. Also include the location of any water supply intakes or wells, and groundwater monitoring wells. This map shall be a United States Geological Survey Quadrangle (7.5 minute series) or other map of comparable detail, scale, and quality (which shows surface water bodies, roads, bathing beaches, and other pertinent landmarks). **The minimum area this map shall encompass is approximately one mile beyond the property boundaries.**

ATTACH THIS INFORMATION TO THIS APPLICATION.

12. CONTRACT LABORATORIES THAT PROVIDE ANALYTICAL SUPPORT

Provide the name and address of each contract laboratory or consulting firm that performed any analyses submitted as part of this Application. To submit additional information, see Page ii, Item 3.

Laboratory Name KR Laboratories ,Inc.			Laboratory Name

14. STORM WATER DISCHARGES

Facilities that discharge storm water must provide the following information. (Please Note: The following discharges are also covered by storm water authorization, provided they are addressed in the facility's Storm Water Pollution Prevention Plan [SWPPP]): Discharges from fire hydrant flushing; potable water sources, including water line flushing; fire system test water; irrigation drainage; lawn watering; routine building wash down which does not use detergents or other compounds; pavement wash waters where spills or leaks of toxic or hazardous materials have not occurred (unless all spilled material has been removed) and where detergents are not used; air conditioning condensate; springs; uncontaminated ground water; and foundation or footing drains where flows are not contaminated with process materials such as solvents. **Unless otherwise specified answer the following questions.**

A. Is the storm water from this facility discharged to the waters of the state either directly or through another conveyance? Note: If storm water is discharged to a municipal wastewater treatment system or a privately owned activated sludge treatment system check the "No" box.

- ☒ Yes.
☐ No. Continue with Item 15.

B. Is the facility identified in this application primarily engaged in an "Industrial activity" as defined in 40 CFR 122.26(b)(14)?

- ☒ Yes.
☐ No. Continue with Item 15.

C. Are there any industrial activities or materials exposed to storm water at this facility? Storm water discharge requirements may be excluded from an NPDES permit when there are no industrial activities or materials exposed to storm water. To qualify, the applicant shall certify that the facility has met all the eligibility requirements to claim a condition of "no exposure". These requirements are found in the No-Exposure Certification form in the appendix. This form is also available on the DEQ's Internet Page. To access the form, go to <http://www.michigan.gov/deq>. In the left column click on WATER, click on Surface Water, click on Storm Water, in the middle column click on Industrial Program, then click on No Exposure Certification.

- ☐ Yes.
☒ No. Complete the No-Exposure Certification form, and submit it with this application. Continue with Item 15.

D. Does this facility have a current and up-to-date SWPPP?

- ☒ Yes.
☐ No. **Note: The applicant must complete this program element to receive storm water discharge authorization.**

E. Has the facility implemented the nonstructural controls described in the SWPPP?

- ☒ Yes.
☐ No. **Note: The applicant must complete this program element to receive storm water discharge authorization.**

F. Have all the structural controls described in the SWPPP been constructed and put into operation?

- ☒ Yes.
☐ No. **Note: The applicant must complete this program element to receive storm water discharge authorization.**

G. Does this facility have a certified industrial storm water operator who supervises the facility's storm water treatment and control measures included in the Storm Water Pollution Prevention Plan?

- ☒ Yes. Jeffrey M. Dietlin 02413
Storm Water Operator Name Certification Number
☐ No. **Note: The applicant must complete this program element to receive storm water discharge authorization.**

H. Is any of the storm water discharged from (check all that apply):

- ☐ Secondary containment structures that are required by state or federal law. On a separate page, provide a list the materials that are stored in this area.
☐ Areas identified on Michigan's list of Sites of Environmental Contamination, pursuant to the Natural Resources and Environmental Protection Act, PA 451 of 1994, Part 201 (formerly 307).

I. The storm water from this facility discharges to the following receiving water(s): Clam River

Please note that applicants should provide any sample data taken of the storm water discharge as an attachment. To submit additional information, see Page ii, Item 3.

15 CERTIFICATION

Rule 323.2114(1-4), promulgated under the Michigan Act, requires that this Application be signed as follows:

- A. For an organization, company, corporation, or authority, by a principal executive officer.
- B. For a partnership, by a general partner.
- C. For a sole proprietor, by the proprietor.
- D. For a municipal, state, or other public facility, by a principal executive officer or ranking elected official (such as the mayor, village president, city or village manager, or clerk).

Note: If the signatory is not listed above, but is authorized to sign the Application, please provide documentation of that authorization.

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for having knowledge of violations."

Print Name: <u>Jeffrey M. Dietlin</u>	Title: <u>Water Resources Supervisor</u>
Representing: <u>City of Cadillac</u>	
Signature: 	Date: <u>3/25/2007</u>

This completes Section II. Publicly-Owned Treatment Works discharging sanitary and industrial wastewater to the surface waters, and privately-owned treatment works discharging sanitary wastewater to the surface waters should complete Section II. Privately-owned treatment works include, but are not limited to, Mobile Home Parks, Campgrounds, Condominiums, Hotels and Motels, Nursing Homes, etc. All other applicants should complete Section III. If assistance is needed completing this Application, contact the Permits Section.

Permit Application Submittal Checklist

Please confirm the following before submitting the application form:

- ☐ 1. Section I has been completed, including all diagrams, maps, and the treatment process narrative.
- ☐ 2. The Application has been signed as required above in Section I.15. (A.-D.) or a copy of the letter authorizing the signatory to sign the letter has been included.
- ☐ 3. Section II or Section III has been completed, including any additional information or submissions.
- ☐ 4. A check or Money Order for the appropriate application fee has made out to the "State of Michigan and has been included with the application submittal.

Michigan Department of Environmental Quality- Water Bureau
WASTEWATER DISCHARGE PERMIT APPLICATION
SECTION II - Sanitary Wastewater

Section II is to be completed by Publicly-Owned Treatment Works discharging treated or untreated sanitary and industrial wastewater to the surface waters. Section II is also to be completed by all privately-owned treatment works discharging treated sanitary wastewater to the surface waters. The privately-owned treatment works include, but are not limited to, Mobile Home Parks, Campgrounds, Condominiums, Hotels and Motels, Nursing Homes, etc.

A. Facility Information

PLEASE TYPE OR PRINT

FACILITY NAME Cadillac WWTP	NPDES PERMIT NUMBER MI0020257
--------------------------------	----------------------------------

1. WATER SUPPLY INFORMATION

List the source(s) of water supply in the area served by sewers. Identify groundwater wells and surface water intakes, as well as the name(s) of any surface water(s) from which intake water is drawn.

2. SERVICE AREA INFORMATION

Publicly-Owned Treatment Works are required to provide the following information: List the governmental jurisdictions (cities, townships, villages, etc.) that this facility serves (applicants should include themselves). What is the population in each jurisdiction? Is the jurisdiction's collection system separate, combined, or both? If the collection system is both separate and combined, what percentage is combined? To submit additional information, see Page ii, Item 3.

Name	Type of Collection System	Percent Combined	Population Served
City of Cadillac	Gravity	0	10500
Haring Township	Gravity	0	700
Cherry Grove Township	Pressure ystem/Gravity	0	1000
Clam Lake Township	Gravity	0	500

Total population served by this facility: 12700

Privately-Owned Treatment Works are required to provide the following information:

Describe the area served by this facility (mobile home park, condominium, nursing home, industrial facility, etc.).

Provide the number of residential units served by this facility: _____

3. BIOMONITORING FOR ACUTE AND CHRONIC TOXICITY

Publicly-Owned Treatment Works (POTWs) meeting one or more of the following criteria are required to submit with this application the **results of four** whole effluent toxicity (WET) tests for each of the facility's discharge points, excluding combined sewer overflows: 1) POTWs with a design flow rate greater than or equal to one (1) million gallons per day; 2) POTWs with an approved Federal Industrial Pretreatment Program (FIPP); and/or 3) POTWs required to develop a FIPP.

The results of the tests shall be reported using the Acute Toxicity Test Report, *Ceriodaphnia Dubia* Chronic Toxicity Test Report and the Fathead Minnow Chronic Toxicity Test Report available in the Appendix. Please do not submit additional forms or paperwork pertaining to WET tests with this application.

At a minimum, the applicant shall submit the results of quarterly WET testing for a 12-month period prior to this application, or the results of annual WET tests conducted during the five years prior to this Application. In addition, the applicant shall submit the results of any other WET tests from the past five years. If a WET test in the past 4-½ years revealed toxicity, provide all the information on the cause of toxicity or the results of all toxicity reduction evaluations, if any were conducted. The applicant does not need to submit results for previously submitted WET Tests. **For assistance, see the "Whole Effluent Toxicity Test Guidance and Requirements" section in the Appendix.**

B. Outfall Information

PLEASE TYPE OR PRINT

1. **OUTFALL INFORMATION** - Instructions for this item are on Page 8.

List the discharge periods (by month) in the space provided below.

How often is there a discharge from this outfall (on the average)? 24 Hours/Day 365 Days/Year

Batch Peak Flow Rate: _____ Number of batches discharged per day: _____

2. EFFLUENT CHARACTERISTICS – CONVENTIONAL POLLUTANTS

Existing Treatment Works Treating Domestic Sewage (TWTDS) are required to report data from effluent analysis for the parameters listed below. (See the Definition Section in the Appendix for sampling definitions, including "maximum daily concentration" and "maximum monthly concentration.") RTBs are required to provide a summary of influent and effluent data for the last five years. **For analytical test requirements, or if alternate test procedures for any parameter listed below have been approved, see Page ii, Item 5.**

New TWTDS are required to provide **estimated** effluent concentrations for the parameters listed below.

☐ Check this box if additional information is included as an attachment. To submit additional information, see Page ii, Item 3.

Please Note: Rule 323.1062 allows the use of either Escherichia Coliform Bacteria or Fecal Coliform Bacteria as the indicator that effluent has been disinfected. The Department will use the indicator selected below in the permit issued based on this Application.

☐ Use Escherichia Coliform Bacteria as an indicator of disinfection.

☒ Use Fecal Coliform Bacteria as an indicator of disinfection.

Parameter	Maximum Monthly Concentration	Maximum Daily Concentration	Units	Number of Analyses	Sample Type
Biochemical Oxygen Demand - five day (BOD ₅)			mg/l		☐ Grab ☐ 24 Hr Comp
BOD ₅ , Lowest % Removed		Do Not Use	%		☐ Grab ☐ 24 Hr Comp

WASTEWATER DISCHARGE PERMIT APPLICATION

SECTION II - Sanitary Wastewater

B. Outfall Information

PLEASE TYPE OR PRINT

FACILITY NAME Cadillac WWTP	NPDES PERMIT NUMBER MI0020257	OUTFALL NUMBER 001
--------------------------------	----------------------------------	-----------------------

3. EFFLUENT CHARACTERISTICS - TOXIC POLLUTANTS

Existing Publicly-Owned Treatment Works (POTWs) with (1) a design flow greater than or equal to 1.0 MGD; or (2) an approved Federal Industrial Pretreatment Program (FIPP); or (3) required to develop a FIPP or otherwise required by the permitting authority shall provide the results of three effluent analyses for each parameter listed below for each outfall through which effluent is discharged. Any effluent testing data for pollutants not specifically listed shall be included using the blank rows provided on Page 17. Do not include information on combined sewer overflows in this section.

All existing POTWs (unless already included above) are required to provide (1) the results of at least one effluent analysis (taken in the last five years) for any chemical that is known or believed to be present in facility effluent that is listed in Tables 2, 3, and 4 of the Appendix; (2) a measured or estimated effluent concentration for any chemical that is known or believed to be present that is listed in Table 5 of the Appendix; (3) a measured or estimated concentration for any toxic or otherwise injurious chemical known or believed to be present in facility effluent that is not previously identified in this application; and (4) results of all other effluent analyses that have been performed within the past five years for any chemical listed in Tables 2, 3, 4, and 5 of the Appendix.

New POTWs are required to provide an estimated effluent concentration for any chemical expected to be present in facility effluent that is listed in Tables 2, 3, 4, and 5 of the Appendix, and an estimated effluent concentration for any toxic or otherwise injurious chemical known or believed to be present in facility effluent that has not been previously identified in this Application.

Note: If the effluent concentrations are estimated, place an E in the "Analytical Method" column. In accordance with Rule 323.121(7), facilities whose supply water contains toxic pollutants that are withdrawn from and discharged to the same body of water may qualify for intake credits for those toxic pollutants. See Rule 121(7) for qualification and demonstration requirements. All effluent data submitted in response to this part should be recorded on Pages 11 -17. To submit additional information, see Page ii, Item 3. Report all sampling results in ug/l.

For analytical test requirements, or if alternate test procedures for any parameter listed below have been approved, see Page ii, Item 5 and Table 7 in the Appendix.

SECTION II - Sanitary Wastewater

B. Outfall Information

[illegible]

C. Collection System Information

FACILITY NAME
Cadillac WWTP

NPDES PERMIT NUMBER
MI0020257

Complete this item if there are outfalls at the treatment facility or along the combined sewer collection system from which discharges of untreated or partially treated wastewater occur. Update the information in items A, B, and C below if it has changed since the last application submission.

B. System Map. Provide a map that shows all CSO discharge points.

Identify the outfall(s) from your current permit by number (e.g., 001, 002, etc.). Provide the current status of the outfall (active, inactive, bulk headed, removed), and indicate if continued authorization is required. Attach specific outfall location and discharge information for all outfalls not previously identified.

[illegible]

SECTION II - Sanitary Wastewater

D. Non-Domestic Wastewater Information

PLEASE TYPE OR PRINT

FACILITY NAME Cadillac WWTP	NPDES PERMIT NUMBER MI0020257
---------------------------------------	---

1. SEPTAGE - Does this facility accept septage? (NOTE QUESTIONS 2-4 HAVE BEEN REORDERED)

☐ Yes. On a separate sheet, describe the allocation of the Maximum Allowable Headworks Loading (MAHL) capacity to domestic wastewater, non-domestic wastewater, and septage. The MAHL should include the treatment plant's design and current loading, and at a minimum, the number of gallons and concentrations of the pollutants BOD, TSS, PO₄, and NH₃ that are attributable to each wastewater.

☒ No. Continue with Item 2.

2. RESOURCE CONSERVATION AND RECOVERY ACT (RCRA) WASTEWATER

Does this facility receive, or has it in the last three years received, RCRA hazardous waste by truck, rail, or dedicated pipe?

☐ Yes. Provide the following information on a separate sheet: The method by which the waste is received (truck, rail, or dedicated pipe); the waste's "EPA Hazardous Waste Number;" and the amount of waste received in either mass or volume.

☒ No. Continue with Item 3.

3. REMEDIATION WASTEWATER

Does this facility receive (or has it been notified that it will receive in the next five years) wastes from remedial activities?

☒ Yes. Provide a list on a separate sheet that contains the following information for each current and future remediation site:

- 1) Describe the site and type of facility at which the CERCLA/RCRA/or other remedial waste originates or will originate.
- 2) List the hazardous constituents that are, or are expected to be, received at the POTW. Include data on volume and concentration, if known.
- 3) Describe in detail any treatment the waste receives before being discharged to the POTW.
- 4) Provide the schedule for when the remediation wastewater is discharged to the POTW.

☐ No. Continue with Item 4.

4. INDUSTRIAL AND COMMERCIAL SOURCES

A. Does this facility receive any non-domestic wastewater from any industrial or commercial facilities? (Non-domestic wastewater refers to water that carries wastes other than human and household wastes.)

☒ Yes. Continue with Item B.

☐ No. Go to Part E. Biosolids Information.

B. Provide the following information:

1) Estimate the average volume of non-sanitary wastewater received by this facility: 971000 gallons/day

2) Describe the type of non-domestic wastewater(s) received by this facility in the space provided below. (Check all that are appropriate.)

Wastewater Type	Volume (MGD)	Wastewater Type	Volume (MGD)
Industrial Process Wastewater	<u>230,000</u>	Landfill Leachate	<u>37700</u>
Contact Cooling Water	<u>342000</u>	Trucked Industrial Wastewater	_____
Noncontact Cooling Water	<u>342000</u>	Other _____	_____

C. Is an Industrial Pretreatment Program (IPP) currently required by the DEQ? **Note:** Applicants with an Industrial Pretreatment Program are required to also complete Item 5 on Page 21.

☒ Yes. Provide the most recent approval date for the following elements of your program.

Sewer Use Ordinance <u>2001</u>	Interjurisdictional Agreements <u>1968</u>	Procedures <u>1995</u>
Other Legal Authority <u>1995</u>	Enforcement Response Plan <u>1995</u>	Local Limits <u>1995</u>

☐ No.

REMEDIATION WASTEWATER

The City of Cadillac does accept treated remedial water from one of our industries. It is Paulstra CRC

Since this is treated waste the City of Cadillac expects that no hazardous wastewater will reach the Cities Wastewater plant.

Paulstra CR is carbon treating its remedial waste. This waste does contain TCE from an earlier spill. But the water is not suppose to contain none of this when it is discharged to the City.

Paulstra will continue this discharge until remediation is complete. This date is yet to be determined.

5. SIGNIFICANT INDUSTRIAL USER (SIU) INFORMATION

Supply the following information for each SIU that discharges to the treatment plant. Make additional copies of this page when necessary.

A. SIU location information

Company AAR Cadillac Manufacturing Permit #590-01		
Facility Address 201 Haynes Street		
City Cadillac	State Michigan	ZIP Code 49601

B. Describe all of the industrial processes that affect or contribute to the SIU's discharge.

Aluminum pallets forming for U.S. Air Force - some of process is clasified

C. Describe all of the **principal processes** and **raw materials** that affect or contribute to the SIU's discharge.

Dichroomic Acid rinsing for etching - aluminum

D. Flow Rate. What are the average daily volume(s) of wastewater discharged to the collection system? Are the discharge(s) continuous or intermittent?

Type of Wastewater	Volume of Discharge (gpd)	Continuous or Intermittent
Process Wastewater	101,700	Continuous
Non-Process Wastewater		

E. Pretreatment Standards. Indicate whether the SIU is subject to one or both of the following:

☒ Local Limits

☒ Categorical Pretreatment Standards. Category Metal Finisher 3499 Subcategory _____

Category _____ Subcategory _____

FACILITY NAME Cadillac WWTP	NPDES PERMIT NUMBER MI0020257
--------------------------------	----------------------------------

1. BIOSOLIDS HANDLING

All facilities that generate or propose to generate biosolids must complete items 1 and 2. Facilities that land apply must also complete items 3-6.

Provide total English dry tons per 365-day period of residuals handled under the following practices:

Amount generated at the facility: <u>347.8</u>	Amount sent to municipal solid waste landfill: <u>0</u>
Amount received from off-site: <u>0</u>	Amount sold or given away in a bag or other container for application to the land: <u>0</u>
Amount treated on-site (including blending): <u>347.8</u>	Amount transported to another POTW: <u>0</u>
Amount used or disposed by another practice: <u>0</u>	Transport Company <u>0</u>
Amount applied to land in bulk form: <u>347.8</u>	Receiving POTW <u>0</u>
Amount fired in incinerator: <u>0</u>	

2. BIOSOLIDS STORAGE

Enter the volume of residual storage capacity at this facility: 1.5 ☒ million gallons or ☐ cubic feet

3. BIOSOLIDS CHARACTERISTICS

Report one year residuals monitoring data, and in no case less than three sampling events for the following parameters. Provide the actual analytical data sheets as an attachment. Analytical methods shall be in accordance with R 323.2406 (2) "Methods for Biosolids."

Parameter	Average Monthly Concentration	Maximum Concentration	Units	Number of Analyses	Sample Type	Analytical Method	Quantification Level
Total Solids	5.588	6.14	%	4	☐ Grab ☒ Composite	SM(18)2450B	
Total Arsenic	27.25	35.0	mg/kg	4	☐ Grab ☒ Composite	EPA 6020	
Total Cadmium	6.7	10	mg/kg	4	☐ Grab ☒ Composite	EPA 6020	
Total Copper	931.5	1080	mg/kg	4	☐ Grab ☒ Composite	EPA 6010B	
Total Lead	24.75	51	mg/kg	4	☐ Grab ☒ Composite	EPA 6010B	
Total Mercury	1.21	1.49	mg/kg	4	☐ Grab ☒ Composite	EP 7471A	
Total Molybdenum	23.5	34	mg/kg	4	☐ Grab ☒ Composite	EPA 6010B	
Total Nickel	32.33	35	mg/kg	4	☐ Grab ☒ Composite	EPA 6010B	
Total Selenium	<9	<10	mg/kg	4	☐ Grab ☒ Composite	EPA 6020	
Total Zinc	2287.5	4030	mg/kg	4	☐ Grab ☒ Composite	EPA 6010B	
Total Kjeldahl Nitrogen	77250	95500	mg/kg	4	☐ Grab ☒ Composite	EPA 351.2	
Ammonium Nitrogen	46500	64000	mg/kg	4	☐ Grab ☒ Composite	EPA 350.1	
Total Phosphorus	45000	60000	mg/kg	4	☐ Grab ☒ Composite	EPA 365.2	
Total Potassium	5852.5	8200	mg/kg	4	☐ Grab ☒ Composite	EPA 6010B

4. POLLUTANTS OF CONCERN

Are there currently, or is there potential for, pollutants (other than the parameters listed on the previous page) to be present in the residuals at concentrations that would make them unsuitable for land application?

- ☐ Yes. On a separate sheet provide representative analytical data for those pollutants.
- ☒ No. Continue with Item 5.

5. ADDITIONAL BIOSOLIDS MONITORING DATA

Report any biosolids monitoring data from the last permit cycle for parameters not specifically listed on the previous page. Include the actual analytical data sheets as an attachment. Upon submittal review, additional monitoring may be required if the Water Bureau has reason(s) to suspect that the information provided (or not provided) does not adequately characterize the residuals proposed to be land applied. For assistance completing this item, contact the Permits Section. To submit additional information, see Page ii, Item 3.

Parameter	Average Monthly Concentration	Maximum Concentration	Units	Number of Analyses	Sample Type	Analytical Method	Quantification Level
ALUMINUM	6702.5	7690	mg/kg	4	☐ Grab ☒ Composite	EPA 6020	
CALCIUM	33775	36500	mg/kg	4	☐ Grab ☒ Composite	EPA 6010B	
CHROMIUM	113.25	134	mg/kg	4	☐ Grab ☒ Composite	EPA 6020	
MAGNESIUM	5802.5	6600	mg/kg	4	☐ Grab ☒ Composite	EPA 6010B	
SILVER	23.05	36	mg/kg	4	☐ Grab ☒ Composite	EPA 6020	
SODIUM	12255	18000	mg/kg	4	☐ Grab ☒ Composite	EPA 6010B	
CHLORIDE	14505	21400	mg/kg	4	☐ Grab ☒ Composite	SM4500cle	
PRIORITY POLLUTANTS	BELOW DET.	BELOW DET.	ug/kg		☐ Grab ☒ Composite	EPA 8260	

6. LAND APPLICATION SITE LIST

Provide the following information for every new or existing site that may be used in the next five years (biosolids permit cycle). Each listed site should have been submitted to the MDEQ on a Site Identification Form (with attachments) since January 1, 1998, or the required information should be included with this form. Additional sites may be added to the Land Application Site List during the biosolids permit cycle by submitting a completed Site Identification Form with the appropriate attachments and waiting the required ten-day notification period. To submit additional information, see Page ii, Item 3.

Site Identification Number	Latitude	Longitude	Acres	Owner's Last Name	New Site	CPLR Site
LP001	N44 15.266	W85 15.308	55	PARKER	☒	☐
JE001	N44 17.241	W085 13.274	40	EUBANK	☐	☐
WE001	N44 17.340	W085 13.173	40	EUBANK	☐	☐
LH001	N44 16.911	W085 14.941	34	HARINGTON	☐	☐
LH002	N44 16.930	W085 14.805	18	HARINGTON	☐	☐
SEE ATTACHED SHEETS					☐	☐

This completes Section II. Return the completed Application (Sections I and II, and any attachments) to one of the addresses on Page ii of this Application. If assistance is needed to complete this Application, contact the Permits Section.

6. Land Application Site List

Provide the following information for every new or existing site that may be used in the next five years (biosolids permit cycle). Each listed site should either have had a Site Identification Form with attachments submitted to the MDEQ since January 1, 1998, or that information should be included with this form. Additional sites may be added to the Land Application Site List during the biosolids permit cycle by submitting a completed Site Identification Form with the appropriate attachments and waiting the required ten day notification period. Use additional pages as necessary.
