Per my previous note, we can continue permit negotiations during the public notice period, if necessary.

Attached are a Fact Sheet, Basis Decision Memo, and draft NPDES Permit prepared under the provisions of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451), for the discharge of wastewater from the Cadillac WWTP located in Cadillac, Michigan, as described in your application dated March 22, 2012.

The Public Notice for the proposed discharge is also attached. The Part 21 Rules of Part 31, Water Resources Protection, of Act 451 require that a Public Notice shall be posted at or near the entrance to the site, posted at the post office or other public building in the local municipality, or published in a local newspaper. For at least thirty (30) days, **please post** the enclosed notice near the entrance to your facility beginning **no later than** August 20, 2013. Please keep the notice posted through September 19, 2013. If the notice is not posted by August 20, 2013, please contact me.

Beginning on August 20, 2013, and ending on September 19, 2013, the draft permit, Public Notice, Fact Sheet, Basis for Decision Memo, and Application will be available on the Internet at: <http://www.deq.state.mi.us/owis/Page/main/Home.aspx>.

On the day you post the Public Notice, **please send** me an e-mail containing the following information: the name of the facility, the permit number, the dates the Public Notice will be posted, the location of the Public Notice posting, and the name and title of the person sending the e-mail. The e-mail shall be sent to bitondom@michigan.gov. Please contact me if you have any questions concerning this process.
