Subject: Draft NPDES Permit - MI0020257

Dear Mr. Dietlin:

SUBJECT: National Pollutant Discharge Elimination System (NPDES)
Permit No. MI0020257
Designated Name: Cadillac WWTP

Enclosed are your draft NPDES permit, Public Notice, and Fact Sheet. Please review these documents carefully. If you have any comments on the terms and conditions of this permit, including information that should be considered in the development of site-specific effluent limitations or comments on the standard permit language, please forward them to us prior to May 16, 2008, so that we can consider them before the draft permit is placed on public notice.

The conditions of this draft permit have been considered on a case-specific basis and the monitoring program is considered the minimum which will assure environmental protection.

We now request that the applicant post the Public Notice near the entrance to the facility. We will send you the public notice package when the draft permit is ready for public notice. Your posting will complement the notice that will be on our Internet site. Please let me know if this is not acceptable and we can discuss the other two public notice alternatives, which are posting the notice in a public building in the local municipality or publishing the notice in a local newspaper.

If you have any questions, please contact me.

Sincerely,

Jeff Fischer
