Submission Alias Michigan Industrial Pretreatment Program (IPP) Annual Report

Submission ID HPS-A3KN-2FH30

Form Input

1. Control Authority Program Information

POTW or Site Name:

Cadillac WWTP

? **Note:** Reporting period is January 1 to December 31 of previous calendar year.

1. Reporting Period - Enter the reporting period (January 1-December 31 of the previous calendar year)

Reporting period start date:	Reporting period end date:
01/01/2022	12/31/2022

2. Did the Control Authority adopt any local limits during the reporting period?

NO

3. Did the Control Authority conduct a local limits evaluation during the reporting period?

NO

4. Did the Control Authority add or delete pollutants from its list of local limits during the reporting period?

NO

5. Please identify if there were any problems (e.g., pass-through, interference, violation of NPDES permit limits) with the effluent discharge of this POTW covered by this Pretreatment Program during the reporting period. See 40 CFR 403.3(k) and (p) and [EGLE regs].

NO

6. Please identify if there were any problems with the use or disposal of biosolids or sewage sludge for this POTW during the reporting period.

NO

2. SIU/CIU List

SIU-CIU List Table Template:

[CLICK HERE to download the SIU-CIU List Table template](#)

IMPORTANT:

Leave the  NPDES ID  column blank. The NPDES ID is a unique identifier for each facility in EPA  ICIS-NPDES database. It does not imply that the facility has a direct discharge (NPDES) permit. NPDES IDs will be assigned by EGLE as we enter the SIU/CIU information into MiWaters. You will be notified when the NPDES IDs are available. Once the NPDES IDs are available, please add them to your copy of the SIU-CIU List Table and save it for next year  IPP Annual Report. We also recommend that you update the SIU-CIU List Table at least annually with additions, deletions and revisions as a reference for your next NPDES permit application.

1. Please provide a list of all SIUs and CIUs covered by the Control Authority  pretreatment program. Use the template above.

Comment

NONE PROVIDED

3. POTW Oversight

POTW Oversight Table Template:

[CLICK HERE to download the POTW oversight table template](#)

1. Please upload a table with compliance and enforcement information for each SIU/CIU reported. A template for the table is provided above.

Copy of Copy of Cadillac_POTW_Oversight 2022.xlsx - 03/23/2023 07:07 AM

Comment

NONE PROVIDED

2. Did you answer "No" in column K or "Yes" in column Q or "Yes" in column R of the POTW oversight table for one or more SIU/CIU?

NO

3. Did you answer  YES  in column T of the POTW Oversight Table for one or more SIU/CIU?

YES

3 a. If you indicated "YES", please upload proof of publication.

NONE PROVIDED

4. Annual Pollutant Monitoring Summary

Your NPDES Permit requires the following:

? A summary of results of all the sampling and analyses performed of the wastewater treatment plant  influent, effluent, and biosolids conducted in accordance with approved methods during the reporting period.

? The summary shall include the monthly average, daily maximum, quantification level, and number of samples analyzed for each pollutant.

? At a minimum, the results of analyses for all locally limited parameters for at least one monitoring event that tests influent, effluent and biosolids during the reporting period shall be submitted with each report, unless otherwise required by the Department.

Please use the template provided below to comply with this requirement:

Remember this is a SUMMARY. Please DO NOT upload your laboratory bench sheets or the analytical reports from your contract laboratory. If District IPP staff have questions about the data, they will contact you directly and request additional information.

Please note:

The summary should include the results (maximum monthly average and daily maximum) of all the sampling and analysis of the WWTP influent, effluent and biosolids conducted during the previous year, not just the results of a single sampling event for locally limited parameters. For example, if you have a local limit for TSS and your NPDES Permit requires daily monitoring for TSS, the results of all 365 days of influent and effluent monitoring should be included in your calculation of the averages reported in the pollutant monitoring summary.

1. Upload a copy of the annual pollutant monitoring summary.

SUBMISSION AGREEMENTS

- ☒ I am the owner of the account used to perform the electronic submission and signature.
- ☒ I have the authority to submit the data on behalf of the facility I am representing.
- ☒ I agree that providing the account credentials to sign the submission document constitutes an electronic signature equivalent to my written signature.
- ☒ I have reviewed the electronic form being submitted in its entirety, and agree to the validity and accuracy of the information contained within it to the best of my knowledge.

By submitting, you are providing an e-signature for this report.

Reports submitted to the Approval Authority by the POTW in accordance with paragraph (i) of this section must be signed by a principal executive officer, ranking elected official or other duly authorized employee. The duly authorized employee must be an individual or position having responsibility for the overall operation of the facility or the Pretreatment Program. This authorization must be made in writing by the principal executive officer or ranking elected official of the Approval Authority prior to or together with the report being submitted.

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and reviewed the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for having knowingly provided false information.
