**Comment**

NONE PROVIDED

**3 B. Sampling Comments**

NONE PROVIDED

**4. If results were above criteria established in the PMP Plan, describe the actions that were taken (If not above criteria, type Not Applicable). If additional Space is needed, please upload a file with the described actions.**

Not Applicable

**4 B. PMP actions**

NONE PROVIDED

**Comment**

NONE PROVIDED

**5. POTWs: Describe any actions taken within the collection system (e.g., sampling, surveys, site inspections, etc.) to identify, quantify, or otherwise address the presence of the PMP pollutant of concern. If an Industrial/Commercial facility, type Not Applicable. If additional space is needed, please upload a file with the described actions.**

Sampling

Site Inspections

**5 B. Collection System Actions**

NONE PROVIDED

**Comment**

NONE PROVIDED

**6. Please upload a list of potential and known PMP pollutant of concern dischargers within the collection system (Not Required for Industrial/Commercial facilities).**

[List of Potential Mercury Sources 2022.doc - 03/02/2023 07:01 AM](#)

**Comment**

NONE PROVIDED

**7. Provide a summary of the overall pollutant reduction activities undertaken in the previous year, including an estimate of the mass of the pollutant eliminated, if available:**

Sampling and site inspections of industries within our service area.

**8. Provide a summary of the planned actions to be taken in the current year:**

Sampling and site inspections of industries within our service area.

**9. POTWs with Mercury PMP: All dental offices within the collection system have installed the required dental amalgam separators?**

YES

**9 B. If No or unknown, provide comment on status**

NONE PROVIDED

**Additional Information**

**Additional Uploads (As needed)**
