10. ASBESTOS INFORMATION

Is asbestos present? (i.e. Assumed or identified in asbestos inspection report)

☒ Yes

☐ No

Will asbestos be removed prior to demolition?

☐ Yes

☐ No

Estimate the amount of asbestos: Include RACM (Regulated Asbestos Containing Material) to be removed, encapsulated, etc. Also include the amount and type (floor tile, roofing, etc.) of non-friable Category I and/or Category II ACM that will not be removed prior to demolition. (**NOTE:** In a demolition, cementitious ACM cannot remain in a structure, as it is likely to become regulated in the demolition/handling process. It must be removed prior to demolition. Also, all asbestos must be removed prior to an intentional burn.)

RACM/ACM	RACM to be Encapsulated	Non-friable ACM <u>not</u> removed prior to demo. Category I	Category II	Units of Measure
100				Cu. Ft.

*Volume (cubic ft./meters) should be used only if unable to measure by linear/square measure (example: asbestos has fallen off of surface).

11. PROJECT DESCRIPTION: Complete **A) for Renovation** (asbestos removal/encapsulation) or **B) for Demolition**:

A) RENOVATION: Mark all surfaces/types of RACM to be removed:

For Projects involving RACM (required by EGLE)

If this notification is for a Planned or Emergency Renovation, I certify that an individual trained in the provisions of 40 CFR Part 61, Subpart M, will be on-site during the renovation and during demolition involving RACM above the threshold and/or during an ordered demolition. Per Section 221(1)(2) of P.A. 135 of 1986, as amended, clearance air monitoring is required for any asbestos abatement project involving 10 linear feet/15 square feet or more of friable material which is performed within a negative pressure enclosure. I (the building owner or lessee) have been advised by the contractor of my responsibility under Act 135 to have clearance air monitoring performed on this project. *For affected projects, this section of the notification form must be completed and made part of your records before the project begins.*

I certify that the statements in this notification are true and correct. In submitting this notification, I am aware that a false statement may be grounds for civil or criminal enforcement by EGLE or U.S. EPA.
